Carlists Shelling Guetaria.

A Donation to Garibaldi.

Late News from Australia.

GREAT BRITAIN.

The Wrecked Schiller.

LONDON, May 14.—The divers were able to examine the hull of the Schiller for four hours to-day. They found her broken up, a confused mass of iron and timber. Her lower deck rests on rocks, and her bottom is torn off. None of the specie was recovered and no cargo is visible.

SPAIN.

Carlists Shelling Guetaria.

SANTANDER, May 14.—The Carlists are shelling Guetaria, and have done great damage. A vigorous fire is returned from the fort and from five men-of-war in the harbor. Reinforcements have been dispatched to the town.

ITALY.

A Donation to Garibaldi.

ROME, May 14.—The Senate has voted a national donation to Garibaldi.

BY MAIL.

From Australia.

SAN FRANCISCO, May 14.—The following news has been received by the last steamer:

SIDNEY, NEW SOUTH WALES.—The first of the direct line of steamers for London leaves to-day on her return voyage. Great interest is manifested regarding her passage home. Every effort will be made to beat the time made by the mails by the Cyphrenes.

SOUTH AUSTRALIA.—Wheat reports show that there will be two hundred and four thousand tons surplus wheat. About forty-five thousand tons are already exported. The balance is ready for shipment.

The bark St. Magnus, Captain Easterbrook, from Adelaide for Brisbane, entered Moreton Bay, and took a pilot on board. The wind chaffed round, giving her the lee shore. The vessel stood out to sea, and was discovered the next day bottom upward. A Government steamer searched unavailingly for the survivors of the wreck. She was sailed and owned by Captain Esterbrook, a Bostonian, for many years a resident of Adelaide. His wife and family perished with him.

From Honolulu.

The Honolulu *Advertiser* says: We learn the reciprocity treaty with Hawaii was ratified by His Majesty on the 17th instant. It will be sent forward to Washington for an exchange of ratifications by the May steamer.

PHILADELPHIA.

Over-issue of Stock by a Street Railway President—The Money Used to Bolster Up an Iron Company.

PHILADELPHIA, May 14.—The *Evening Telegraph* says it is alleged by reliable parties that S. Gross Fry, President of the Philadelphia & Darby and Spruce & Pine Streets Street Railway Companies has made an over-issue of Darby stock of from 10,000 to 20,000 shares, and of about 600 shares of the Spruce & Pine Streets road. The money raised upon this stock was used, it is said, to bolster up the Emans Iron Company, and that it was the expectation of Mr. Fry upon a revival of the iron trade he would be enabled to return the moneys borrowed on the stock for that company, and then to retire or destroy the stock. On this hypothecation he realized $10 per share on Darby stock and $35 per share on the Spruce & Pine Street Company's stock. Mr. Fry, whom these allegations of wrong-doing so seriously affect, is a man who has long been favorably known in this city, a son of the late Hon. Jacob Fry, for many years a member of Congress, and once Auditor General of this State.

Later.—It has been ascertained to-night that the Twenty-second Ward National Bank, the Consolidation Bank, the Philadelphia Trust, the Girard Trust and other banking institutions, including a number of prominent brokers, have over issued stock of the Philadelphia & Darby as collateral on borrowed money. Mr. Fry has made an assignment of his property for the benefit of his creditors. A bank President said to-night he thought the railway company was liable for the amount, as the stock was issued in the regular form, signed by the officers, and bearing the seal of the company.

SPORTING NEWS.

The Races at Terre Haute, Ind.

TERRE HAUTE, May 14.—First race, pacing. This was won by Granger in three straight heats. Time, 2:29, 2:25½ and 2:26½.

Second race, Harry Mitchell was second in the first heat, but won the race and $600 in three straight heats. Molsey gained the first heat. Time 2:32, 2:31½, 2:31½ and 2:31½. Harry Mitchell, in the third heat, came near making a record of 2:25, but saved himself by coming in on a jog.

The Races at Mystic Park, Boston.

BOSTON, May 14.—The trotting races at Mystic Park closed to-day with the most hotly contested race of the season. It required seven heats to decide the struggle. The race was for the 2:29 class, and was won by Honest Billy, Dustin Jim second, Honest Harry third, and Frank Palmer, the favorite, fourth. Time 2:30, 2:31, 2:32, 2:33, 2:32¼, 2:35 and 2:36.

The Lexington Races.

LEXINGTON, KY., May 14.—First race, two mile dash. This was won by Chesapeake in 3:37½.

The second race, dash of 1½ miles, was a walk-over for Astral.

The third race, dash of ¾ mile. McGrath's Calvin beat the field easily in the excellent time of 1:16½.

PASS A L'OUTRE.

Captain Eads, of St. Louis, and Colonel Andrews, of Pittsburgh, Making Soundings for the Proposed Jetties.

NEW ORLEANS, May 14.—Pass A L'Outre.—The revenue cutter John A. Dix, with Captains J. B. Eads and John F. Boffinger, of St. Louis, Colonel Andrews, of Pittsburgh, and others on board, left New Orleans at noon yesterday, arrived at the South West Pass at 8 P. M., and anchored until daylight this morning. It then proceeded to the South Pass, accompanied by the steamer Heroine of the Association Tow Boat Line. On their arrival there the party went on board the Heroine and proceeded over the bar. Captain Eads and Colonel Andrews, in connection with Government engineers, made soundings of the bar and of the line of the proposed jetties. They found not less than eight and a half feet of water on the bar. The soundings were continued to the head of the passes, where the least water found was sixteen feet. The weather was clear and calm, very favorable for making soundings. The opinion of all present was that the jetties would prove a perfect success in securing a sufficient depth of water for any vessel in twelve months. Captain Eads and party remain at the passes to complete the surveys.

THE MINERS' WAR.

A Fight Between Police and Strikers at Sterling—Miners at Powelton Compelled to Stop Work—Military Force Necessary to Suppress the Outrages.

TYRONE, May 14.—Fifty men went to work at the Sterling mines this morning. At about eleven o'clock a fight took place between a few police and the strikers, and two of the latter were arrested. The police force is not sufficient to protect the willing workmen. L. G. Coutre, editor of *L'Italia*, who on Monday was captured by the strikers, is at Tyrone with forty Italians, determined to put them at work with proper protection. Military force will be necessary to suppress the outrages.

About half the men at the Powelton mines were compelled, by the strikers, to stop work last night.

In the Loyalhanna riot case the jury, at half past two o'clock in the afternoon, rendered a verdict which the Court stated it could not receive. The jury would have to agree entirely upon the guilt or innocence of all the parties. The jury appeared to be very much divided in opinion, and again retired.

Daring Escape from Sing Sing.

POUGHKEEPSIE, N. Y., May 14.—While an engine attached to a freight train going to New York city was passing through the arch at the Sing Sing State Prison this morning, four convicts jumped on the engine, presented revolvers at the engineer and firemen and compelled them to get off. They then cut the engine loose from the train and started southward, abandoning the engine three miles north of Tarrytown, where it was found with both of the cylinder heads broken.

SOCIAL SCIENCE.

Proceedings of the American Association at Detroit—A Paper by Hon. H. B. Eaton on the Experiment of Civil Service Reform in the United States.

DETROIT, May 14.—In the American Social Science Association, this morning, Hon. H. B. Eaton, President of the late Civil Service Commission, read a paper on the experiment of Civil Service Reform in the United States, which was extremely lengthy, but which was listened to with attention by a large audience.

Mr. Eaton begins by saying that the deliberate and needless abandonment of a plan by which a great nation had entered successfully upon the reform of its gravest abuses may well arrest the attention of all thoughtful persons. Never before in our history has there been such a surrender of the higher to the lower elements in our politics. Heretofore in every great struggle for reform we have fought it out to victory upon the line of our advance, and have planted our standard high upon the light of the inspiring element.

After dwelling upon the disasters which must result from a total abandonment of this reform, the dismay of honest men, the delight of partisans and office seekers at this national breach of pledge and disgrace, he proceeds to consider the justification, the responsible parties, and the future prospects. The inauguration of

The Spoils System

commenced with President Andrew Jackson, who removed nearly two thousand officers in a year for partisan reasons. Earlier Presidents removed very few. The last report of the Civil Service Commissioners showed that no officers had been removed for opinion's sake that year. Now, however, we have returned to the old, detestible system. The Republican party in 1871 adopted the civil reform rule because it believed it would add to their strength. The President brought an honest and heroic patriotism from the battlefield, and the political atmosphere was pure. The time was auspicious. The evils of the old system and the beauties of the new were enlarged on, and a law passed authorizing the President, with his associates, to adopt reform measures and execute them. A system of rules was carefully matured, which Congress approved heartily in two separate sessions. The Republican party fully pledged themselves to sustain the system in Congress, its conventions and in every possible way. National, Democratic and Labor Reform conventions passed resolutions commending it. State conventions, public men, orators, and writers eulogized it. The praise in the President and faith in him was in the heart of all, and public gratitude was a part of the merited reward of Mr. Curtis and his fellow commissioners. The dominant party was strengthened by a popular vote, and everybody looked for a better era in politics.

Mr. Eaton then gives a synopsis of the rules, and charges corrupt politicians and office seekers with being responsible for the defeat of an appropriation by Congress for carrying out the reforms commenced. He says: "The reform is defeated temporarily; but so also are its opposers. We cannot continue the spoils system. Reform will make its power felt again. The influence will last and permeate. This victory will not be immediate, nor radical. The reform, when it begins again, must be more restricted—must not attempt too much. There is no discouragement. The people are with us. Our principles are sound. We can say of them as President Lincoln said of those he urged against slavery, in 1856: 'These principles of ours are vital. They will ultimately win, and they will endure when you and I are gone.'"

BREVITIES.

Paragraphic Pencilings of Passing Events.

····The citizens of the South Side hill wards are going to petition Councils for more water.

····Twenty-five Philadelphia Councilmen will arrive in the city this evening from Greensburg.

····Patrolman W. S. Work, of the South Side, anticipating a charge of dereliction of duty, resigned yesterday.

····The Black Maria team of horses, including harness and blankets, was sold yesterday to Walter Kirkpatrick for $376.

····A reward of one hundred dollars is offered for the arrest of George Bartell, who recently escaped from the Columbus, Ohio, penitentiary.

····Mrs. Foster, of Parker City, while coming to Pittsburgh on Thursday evening, had two checks stolen from her, one for $100 and the other for $130.

····The semi-annual inspection of the Sixth Division of the National Guard of Pennsylvania will take place in this city on Monday, the 16th inst.

····The County Poor Farm Directors have decided to add a new hospital to the institution under their charge; also to repair and renovate the old buildings.

····The Uniontown *Genius of Liberty*, barring its politics one of the best country newspapers in this part of the State, has donned a spring suit of new type.

····The Coroner's jury, yesterday rendered a verdict that Warren Jackson, the colored man who was found drowned near Brown's Station Thursday morning, came to his death by accident.

····The Independence engine house on Penn street, and the Walton house, on the South Side, are said to be in a very unsafe condition. The former has been condemned by the Building Inspector.

····On Monday night B. S. Stoner was arrested by Officer Ward for sleeping on a bench in the Park. He was discharged by Mayor Phillips the next morning, and since that time nothing has been heard of him.

····There was no hearing yesterday before Mayor Phillips in the case of the Barron sisters, charged with pilfering jewelry from the residence of Mr. Robert Ray, of Allegheny, in whose service they were as domestics.

····The persons arrested at Philo Hall on Friday morning were before the Mayor yesterday and nearly all were fined five dollars and costs or sent ten days to jail. John Young, a suspicious character, was sent to the Work House for one month.

····For Sale.—That crop of fresh mown hay, just cut from the luxurious Second Avenue Park, can be seen up to—heaven knows when—on the picturesque grounds. We are not Arthurized to mention the price, but presume five cents will secure the crop.

····Yesterday morning Mr. John Emmel, proprietor of Emmel's Hotel in the Diamond, Allegheny, while visiting a cabinet shop in the rear of Semple's dry goods store, had two fingers of his left hand completely taken off by coming in contact with a circular saw. Dr. Ure is attending him.

····A masterly piece of nonsense was that exhibited in the white-washing of the trees and railings of the beautiful Second Avenue Park. The rain washed it all away within a single day. We understand that the Commissioners have made arrangements to spread Paris Green over the grounds, fearing the potato bugs may come and find out a cosy place among its flower beds.

····Yesterday evening, a lady attending service at the Cathedral, was passing out of the church when she was jostled in the crowd, and the usual result followed, viz.,—the picking of her pocket and the loss of a considerable sum of money. Tears and cries were of no avail to restor the loss, and the poor woman left with the belief that even the sanctuary is no security against human depravity.

····In our issue of yesterday, we referred to the fact that Chief of Police Ross has made a number of informations against Allegheny saloon keepers, charging them with violating the law. A hearing was to have been had in some of the cases, but just before the trials were to have begun, a proposition was made to Chief Ross to the effect that if the prosecution of the parties was suspended, the saloon keeprs would bind themselves to adhere strictly to the law, and would inform on any of their number who violated it. The proposition was favorably considered and the accused were released on bail to give time for the signing of an agreement embodying the above.

····Joseph S. White, a delegate to the National Temperance Convention from Lawrence county, was served with a writ yesterday to answer a suit brought against him in this city by T. D. Casey for malicious prosecution. Not long since Mr. Casey was attending as a witness in a liquor suit on trial at New Castle, he was arrested when about to leave for home, at the instigation of Mr. White, for violating the Local Option law in sending liquor from this city to an agent in Lawrence county who had ordered it. Mr. Casey was subsequently discharged by Judge Bredin, after an argument on the case, and he has taken the above method to get even with his prosecutor.

PERSONAL.

***Mr. David L. Anderson, an aged citizen of Bedford, Pa., died on Thursday. He was eighty-four years old.

***A complimentary banquet was given last evening to Prof. S. P. Langley, of the Allegheny Observatory, by the Duquesne Club, in recognition of his services to the science of astronomy.

***Sheriff Springer, of Fayette county, has arrested forty miners for unlawful demonstrations on the Southwest Pennsylvania Railroad, and lodged them in the Uniontown jail. The prisoners, who were on a strike, attempted to interfere and compel other miners to cease working, and, in some cases, it is said personal abuse was resorted to.

***Hon. A. W. Foster lectured in the Bellefield Presbyterian Church on Thursday evening on "American Politics," before a large and interested audience. The gentleman devoted his attention to a discussion of the principles of the Constitution, but in his remarks, bore very strongly toward State rights, and very unequivocally demonstrated that he was a Democrat of the old school. The lecture, however, notwithstanding its partisan bias, was thoughtful and of a graceful literary character.

SECOND EDITION

FROM WASHINGTON.

The Whisky Frauds Still Receiving Attention.

Collusion of Gaugers With Distillers.

WASHINGTON, May 14, 1875.

The Whisky Frauds

are still receiving attention by the Treasury Department, and Solicitor Wilson is continually unearthing new frauds. A further record of evidence was discovered to-day against the Union Copper Distillery of Chicago, and one hundred and fifty barrels of spirits were seized at their works. Three hundred barrels were also seized belonging to Bevis & Frazer in St. Louis, fresh proof having been obtained against them. Photographic copies of internal revenue returns are being made at the Treasury Department and forwarded to the officers in different cities to aid them in substantiating their charges. Among those made to-day was one from the Gauger at Cincinnati, certifying that a certain number of barrels of spirits had been emptied and the stamps destroyed, in accordance with the law, and upon a further search the same lot of spirits was found in Chicago in the original packages, thus conclusively showing collusion of the Gauger with the distillers.

On April 30 Mr. Wilson called upon the Collectors of Internal Revenue in different localities to furnish certain information concerning the transactions in their districts, but up to last night very few of them had responded, and to-day the Secretary of the Treasury called upon them for an explanation of their non-compliance and for an immediate reply. He is determined that all orders of this nature shall be obeyed, or collectors must take the consequence. A large number of communications have been received from different sections from parties offering to furnish proof of fraud, and the Secretary has directed all such to furnish the proof to the proper officers, and if found valuable and used, parties furnishing it will be remunerated.

Information reached here this morning that the distillers in Milwaukee had called upon those of St. Louis to combine with them in procuring the services of Hon. Matt. Carpenter to obtain their release. In response to it, Secretary Bristow sent dispatches to the Supervisors at Chicago, St. Louis and Milwaukee, informing them that the best legal assistance will be furnished them in their efforts to convict those under arrest, and the Government is confident of establishing the guilt of all the parties.

Personal.

Commissioner Pratt will take charge of the Internal Revenue Bureau to-morrow.

Ex-Commissioner Douglass has decided to open a law office in this city, and practice before the Supreme Court and departments.

MISSOURI.

Daring Daylight Robbery Near Clinton—The Younger and James Brothers Suspected of Committing the Crime.

ST. LOUIS, May 14.—The *Democrat* has a special from Clinton, Henry county Missouri, giving an account of a daring robbery committed in that county last Thursday. D. B. Lambert keeps a country store twelve miles north of Clinton. It stands alone on the prairie, has a croquet ground in the rear of the building, and is a resort for the young people of the neighborhood. On Thursday morning two strangers rode up, entered the store, and were shortly followed by two other strangers. As soon as the latter entered the house the first two drew revolvers and commanded Lambert to stand. The other two men went to the croquet ground, where eight gentlemen and ladies were playing, and ordered them into the store, where they were guarded by three of the strangers, while the fourth robbed the store of $200, a fine watch, shot gun, two revolvers, and a considerable quantity of goods. They then left in the direction of Clinton. All were well dressed, genteel looking men, well armed, and mounted on splendid horses. The robbery was done so quietly and quickly that a blacksmith working one hundred yards distant knew nothing of the matter until the affair was over. A gentleman living near Clinton says he saw and conversed with two of the Younger brothers last Tuesday, and from this fact the robbery is attributed to the Younger and James brothers.

THE GALLOWS.

A Triple Murderer Hanged in Camden, S. C.

CHARLESTON, S. C., May 14.—Josh Frazer, colored, was hanged at Camden today, for the murder of Benjamin Cooper, in December last. He was convicted on circumstantial evidence, but after conviction confessed the crime. On the scaffold to-day he confessed that he murdered his wife and child and a negro woman, and had burned many barns and gin-houses.

THE LATEST NEWS.

Condensed Telegrams from All Quarters.

—Indianapolis is to have a musical festival next week.

—Sixty thousand ounces of gold were melted in the mint at San Francisco on Thursday.

—James V. Smith, engineer on the steamer Senator, blown up at Portland, Oregon, has been placed under bonds on a charge of manslaughter.

—A dispatch from Salem, Oregon, says Goveral Grover will call a special election on October 25th to fill the vacancy caused by the death of Congressman Ladow.

—The May musical festival in Cincinnati was closed yesterday. It is considered one of the most remarkable and memorable entertainments ever attempted in America.

—A Lexington dispatch says the condition of General Breckinridge remains unchanged. He is still free from pain, and those in attendance on him are less apprehensive of his sudden death than they were.

—Immense swarms of chinch bugs are flying about Clinton and adjoining counties, Missouri, and myriads of grasshoppers are swarming over several western counties of that State. Great apprehensions are felt for the growing crops.

—Captain Thornton, U. S. N., died in Philadelphia on Friday. He was executive officer of Farragut's flag ship in all the battles on the Mississippi, cut out some privateers near Mobile, and was executive of the Kearsarge when she sunk the Alabama.

—General Terry, at St. Paul, has received a dispatch from Fort Randall, announcing that Lieut. Armstrong had just brought in the Andrews-Wharton party, *en route* to the Black Hills, from Sioux City, consisting of forty-two men, six wagons and twenty-two horses. The party had reached to within sixty miles of Harney's Peak.

—Advices of the crop prospect in Arkansas are now more favorable than at any time since 1865. From every section there is the same report. More land is in cultivation, and the people are working better than was ever known before. Cotton, corn, wheat, and fruit will be more than plentiful.

—The Postmaster General has issued an order forbidding the payment by the postmaster at Cincinnati of postal money orders drawn to the order of L. D. Sine, who is engaged in conducting a gift enterprise. All registered letters addressed to Sine are to be returned to the office from which they were mailed.

—The extensive works of the Columbus (Ohio) Lumber and Barrel Company, including a stock of seasoned lumber and valuable machinery, was totally destroyed by fire on Friday morning. Loss $23,000, on which there was an insurance of $10,000. One peculiar circumstance connected with this company is that most of the present owners only purchased their stock about a week ago.

—Ch. Davis, late postmaster at Union Springs, Ala., has plead guilty to the embezzlement of funds from letters, by request of the District Attorney, who states that there were extenuating circumstances. The lowest penalty was imposed—six months' imprisonment and a fine to the amount of the money abstracted. Davis was a member of the Legislature in 1872, and voted for Spencer for Senator. Soon after he was appointed postmaster.

CITY HEALTH AFFAIRS.

Session of the Board of Health Last Night—Mortality During April.

The Board of Health met last night in Municipal Hall, and Mr. W. A. Herron appeared before it and complained about the emptying of the contents of cesspools and garbage on the shore at the Point, as it occasions a great stench. The matter was referred to the Sanitary Committee.

Health Officer Gray presented the following report for the month of April: Nuisances abated, 423; permits issued, 137.

Am't received from permits	$66 50
Other sources	5 00
Total	$73 50
Expended	24 66
Balance	$48 84

Four suits have been instituted for violations of the health laws.

Dr. Snively, Physician to the Board, made the following hospital report: Number of patients in hospital April 1st, 1; number admitted during April, 14. Deaths during April, 2. Discharged, 4. Remaining May 1st, 9.

The total number of deaths in the four weeks ending May 1st, 1875, was 207. The death rate was equivalent to 19,22 per 1,000 inhabitants annually, being considerably below the mean rate for the year 1874, which was a year of extraordinary good health. There were 43 deaths of infants under one year of age, and 46 of children between the ages of one and five years. The number of deaths of persons 70 years of age and upwards, was 12, or 5,80 per cent. of the total mortality. Consumption caused 39 deaths, and acute affections of the respiratory organs 35. During the month there has been a slight decrease noted in the mortality from typhoid fever, diptheria, scarlet fever and small pox, although the number of the reported cases of the latter disease considerably exceeds that of the previous month.

Reports from several Inspectors were read, relative to the sanitary condition of their respective districts.

Dr. Thomas presented a resolution requesting Councils to order the paving of Twenty-eighth street and Union alley, Twenty-fourth ward, as a sanitary measure. Passed.

A number of bills were read, among them one from Dr. Czarnieckie, for removing dead animals, which amounted to $48, and all of them were ordered to be paid.

Adjourned.

To Whom it May Concern.

To all parties who have been out of work during the hard times of the past winter, I am able to make an offer which should at once rivet their attention. To the persons referred to I will make a special reduction upon all articles now in my store. Such as have been out of employment must necessarily be anxious to purchase goods at the very lowest rates, and to them, and THEM ONLY, I will sell at the following rates, which are cheaper than those quoted by any other merchant in the trade, viz.: Suits which I have sold at $20 I will sell to the above named parties for $15; pants at $3.50, and upwards; all-wool summer suits at $10, which I have been selling at $15; white vests at $1.50, and upwards; jean pants at $1; boys' suits at $5. I am enabled to make this offer, as I have just completed my summer stock, which was bought at panic prices. In addition to the above, I am able to furnish fine suits made to order, cut by a competent cutter, at twenty-five per cent. less than elsewhere. All such parties as were out of employment last winter should not neglect this offer. Call this day, and see the great stock. An extra force of salesmen has been engaged to wait on everybody, and avoid delay. Workmen! clerks! now is your chance.

T. TOBIAS,
Big 13, Sixth street.

Dress Up.

Wait no longer for a Spring suit, in the fear that Winter may return again, as old Sol is now determined to make King Frost take a back seat. And be advised that among the many Merchant Tailoring Houses of the two cities none have a finer, fuller or more fashionable assortment of Foreign and American fabrics than W. Hespenheide & Co., No. 50 Sixth street. They have secured a line of piece goods especially suitable for Spring suits, which they are prepared to make to measure in the highest style of art. With Cloths, Cassimeres and Vestings of super-excellent quality, and of the latest styles, workmen of skill and experience, cutters and fitters of first class reputation, and prices to accord with the times, they merit as they are receiving an extensive patronage. Order soon, as first come, first served.

Why She Does Not Consolidate.

Alleghenians know full well that their interest lies in opposing consolidation, for those stores which sell at from twenty to thirty per cent. below Pittsburgh figures would be compelled, as a result of consolidation, to increase their prices. Mr. R. Taggart, of No. 129 Federal street, Allegheny, who keeps such an extensive and excellent assortment of boots and shoes and sells the best quality at from twenty-five cents to two dollars per pair, opposes the union, for the reason that he desires to continue as he begun, by giving his patrons the best boots and shoes at lower figures than can be done at the *largest* Pittsburgh house.

XL ALL Refrigerator with Filter and Cooler combined, requires less ice, gives better satisfaction and at less prices than any other of first-class got up in oak and walnut.

Allegheny.

True to the Letter of Representation.

The stock of jewelry now in store at the house of Geo. Crawford & Co., 82 Fifth avenue, is first-class in every respect and every piece will be guaranteed to be just as represented. The goods and prices defy competition.

THE COURT RECORD.

A Complete Report of the Proceedings in the Courts Yesterday.

United States District Court.

(Before Judge McCandless.)

John Walker, Jr., of Allegheny, filed a petition for the adjudication in bankruptcy of himself, yesterday. The matter was referred to Register Harper.

In the matter of A. Arnsthal, the rule on the assignee to show cause why the order confirming the report of Register Schaffer, with regard to the claim of A. C. Silverman, should not be rescinded, was discharged.

In the matter of C. B. Warrington, a bankrupt, the appointment of John H. Bailey, Esq., as assignee was approved.

In the matter of H. P. Whitmore, Luzerne county, the assignee's return of sale was presented to the Court and ordered to be filed for confirmation in ten days unless exceptions are filed.

In the matter of Anna E. Sink, the assignee filed a bill for an injunction against Thomas Scandrett and others.

United States Circuit Court.

(Before Judge McKennan.)

The only case before this Court yesterday was the action of Alexander McCormick, assignee of Irwin H. Hayden vs. the Germania Life Insurance Company. The suit is brought to recover ten thousand dollars, the amount of an insurance policy held on Hayden's life, which was taken out in the Germania. The deceased Hayden, came to this country a couple of years ago and after being employed as a clerk in Allegheny for some time went into business with Alexander McCormick. They bought largely on credit and Hayden expected to meet the payments with the proceeds of remittances from abroad. In this he was disappointed, and his inability to pay had such a depressing effect upon him that he took a narcotic, from the effects of which he died April 21st of last year. Ten days before the alleged suicide, he took out a policy of insurance in the Germania and assigned it and all his personal property to his partner, the plaintiff in the present suit.

The plaintiffs only examined one witness yesterday and offered the insurance policy in evidence, after which the defense was opened. It is expected that the rebutting testimony will develop some interesting facts.

Common Pleas Court No. 1.

(Before Judges Sterrett and Collier.)

In the case of William Dalzell & Son vs. Frank McKenna, a *sci fa* on a mechanics lien, the jury found for the defendant and certified a balance in his favor of $2.91.

A juror was withdrawn and the matter settled in the case of J. M. Gartside for use vs. S. Miller et al., a *sci fa* on a mechanics lien.

Louis Kregler vs. William Sewell; action for work and labor done. Verdict for plaintiff for $30.

In the matter of the Duquesne Savings Bank vs. David Campbell et ux., a motion was made for a new trial on the part of the plaintiffs.

P. J. Devlin vs. William Blakely and J. T. Dickey; *sci. fa.* on a mechanics' lien. Verdict for plaintiff for $21.31.

James Dawson vs. John Ewalt; action on a promissory note. Verdict for plaintiff for $11.20.

In the case of Andrew Humbert vs. M. A. Arnholdt, an action on a promissory note, the jury found for the defendent.

Common Pleas Court No. 2.

(Before Judges Kirkpatrick and White.)

In the case of John McMillen et al. vs. John Oliver et al., a motion was made for a new trial on the part of the defendants and reasons filed therefor.

The case of P. F. Collins & Co. vs. O. W. Barnes, previously reported, is still on trial.

William L. Allen & Co. vs. William Haslage & Co; action to recover for goods sold and delivered. On trial.

Criminal Court.

(Before Judge Ewing.)

Alexander King, indicted for felonious assault, on oath of J. J. White. Not guilty.

Wm. Ferguson, indicted for fornication and bastardy on oath of Lucinda Geyer. The defendant having filed a bond to indemnify the guardians of the poor and citizens from any expense that may arise from maintaining the child, a *nolle pros* was allowed.

Harry Martin, indicted on two charges of illegal liquor selling, was found guilty on one charge and a *nolle pros* was allowed as to the second.

Francis J. McGuire, indicted for assault and battery on oath of John Harvey, was convicted.

Eugene Schultz, indicted for illegal liquor selling on oath of John S. Hoerr, *nolle pros* allowed.

Henry Schmidt, indicted for illegal liquor selling on oath of V. K. McElheny. Not guilty, and the prosecutor pay the costs.

John Argile, indicted for illegal liquor selling, on oath of Thomas S. Wilson. *Nolle pros* allowed on payment of costs by defendant.

Wm. Lang, indicted for larceny, on oath of L. Porter. Not guilty.

Lawrence Initer, indicted for illegal liquor selling on oath of John D. Hoerr. *Nolle pros* allowed.

James Riley, indicted for illegal liquor selling on oath of the above prosecutor. *Nolle pros* allowed.

ACTION FOR ALLEGED TRESPASS.

An action was begun in the Common Pleas Court No. 2 yesterday, by Lebbins Kelly vs. George Katz and Thomas Wilson for alleged trespass. The plaintiff says the defendants did, on the 13th of May, enter his dwelling, in Plum township, during his absence, and eject therefrom his wife and children, after which they removed his furniture. A capias was issued, returnable the first Monday in June.

ACTION FOR DAMAGES.

A suit was brought in the same Court yesterday, to recover damages in the sum of five thousand dollars for alleged malicious prosecution and false imprisonment, by James D. Douglass vs. C. W. Coleman. The plaintiff avers that defendant made an information before Alderman D. L. Smith, of Allegheny, against him, on the 21st of April, 1875, charging him with fraud on account of his attempted removal into another State, while in the debt of Coleman to the amount of $53.72; that the debt was a grocer's bill, which he had been unable to pay on account of ill health and non-employment; that after he had been arrested and detained from proceeding on his journey, he paid said bill, which led to the withdrawal of the criminal charge against him, and he now brings action to recover damages as stated.

SUITS IN EJECTMENT.

Jacob Tomer entered a suit in ejectment in the Common Pleas Court No. 1 yesterday, against Valentine Fehl, to recover possession of three lots, situated on Miller street, in the Seventh ward, Pittsburgh.

Chas. F. McKenna, Alex. McKenna and Samuel Dyer, trustees of the estate of Abraham Bailee, instituted proceedings in ejectment in the Common Pleas Court No. 1 yesterday, against Mary Ann Bailee, to recover possession of a lot on the corner of Robinson and Isabella streets, Allegheny. A summons was issued.

Spring and Summer Suits, Cheap.

The assortment of men's and boy's clothing at the Boston One Price Clothing House is as full and complete as the most exacting could desire, and comprises the latest novelties and the latest styles. Gentlemen desiring choice goods, good workmanship, and neat and comfortable suits, as much so as if made to measure, should examine the stock and prices at this popular house, No. 95 Smithfield street.

European Steamship Arrivals Yesterday.

Dispatches received at Max Schamberg's European Steamship, Exchange and Telegraph Office, at 163 Smithfield street, announce the arrival of the steamer Ethiopia, at New York; steamer Ohio, at Southampton; steamer Holland, off the Isle of Wight. The Inman line steamer City of Brussels is ashore on the coast of Ireland. The passengers were all landed.

When You Want Stereoscopic Views

go to J. R. Weldin & Co.'s, 101 Wood street, where you will find all the fine lines of every stereoscopic artist of any merit in the world, plain or colored, and where they have them so arranged that you are shown just such lines as you wish to examine without having to hunt over hundreds of cards you do not care about.

Boston Clothing House.

Those who fail to make their purchase of a summer suit at the Boston Clothing House, 95 Smithfield street, are sure to miss a bargain, as the stock of ready-made clothing at this house is of a superior quality, attractive in style, and low in price. Suits fine and elegant at unusually low figures.

Fine and Fashionable.

Having received a fine and fashionable assortment of Summer Cloths, Cassimeres and vestings, James Bleakley, No. 60 Smithfield street, is prepared to give fits to young and old and guarantee satisfaction as to quality of material, durability of manufacture and moderate prices. Go and see him.

Fire Last Night.

Last night about half past eleven o'clock an alarm of fire was sent in from box 53, Spring Garden avenue, Allegheny. In response the engines in the district responded, and hastened in the direction of the blaze. They went out the avenue until the city line was reached, and yet the fire was not within reach. It was located on Spring Hill and could be seen, but could not be approached by the steamers. From the bright blaze, and the rapidity with which it burned, it was supposed that a large barn was furnishing the fuel for the flames. The fire burned for about half an hour, but the firemen, finding that they could be of no service, returned home.

Bargains in Two New Pianos and a Large Lot of Good Second-Hand Pianos at S. Hamilton's, 77 Fifth Avenue.

One of them is of the well-known Bradford & Co.'s make, slightly discolored in the varnish, but would scarcely be noticed. The other a well-known New York make of piano, sent us as a sample, but which we do not intend dealing in, and will therefore sell it at cost. Both are in good condition, and are guaranteed for five years. As they will both be sold so exceedingly low, it will pay you to call at once and secure a bargain. Also, a large lot of good and second-hand pianos, either for rent or sale on very easy monthly or quarterly payments. We must get rid of them to make room for new stock constantly arriving, and, as it is well-known that there is no house in the city that sells at such exceeding low prices as does S. Hamilton, it will be apparent that now will just be the time to secure an extra good bargain in either a new *Estey Cottage Organ* or a *Bradbury* or *Decker & Barnes Piano*, and especially in the above mentioned special instruments. Remember the place is S. Hamilton's, 77 Fifth avenue, up just one flight of stairs, over McCallum's carpet store.

Spring Styles—Beautiful Patterns.

The late spring styles of the Lester Wallack Coat, the double-breasted frock Coat, the single-breasted frock Coat, and the new style double-breasted vest, made to order at the fashionable merchant tailoring house of T. Scandrett & Co., No. 255 Liberty street, where gentlemen will find an assortment of goods adapted to almost every taste, and where every facility is afforded customers to make an intelligent and becoming selection, and where practicable samples will be furnished if desired. A very choice selection of spring cloths is now on the counter, and new and desirable goods are added as they appear in market. The usual low terms to prompt customers. Remember the sign of the "Bee Hive," No. 255 Liberty street.

J. R. Weldin & Co.,

101 Wood street, headquarters for Stereoscopes and Stereoscopic Views, has the largest and most complete line of Stereoscopic Views ever brought to the city, comprising all the views made by the several stereoscopic artists of England, Ireland, Scotland, France, Germany, Austria, Switzerland, Italy and America.

We do not deal in Cheap Shoddy Goods, and will not sell them at any price, so that purchasers have the assurance that what they buy is just what it is represented to be.
We will pursue the same policy in the future that has been so successful in the past, i. e., sell only the very best Instruments at the smallest possible profit.
By pursuing this policy our Trade is to-day, according to the sworn returns of the different Music Houses in Pittsburgh, almost one-third more than any other Pittsburgh House, and as far known, the largest of any Piano and Organ House in Pennsylvania.
Please remember this, that the great aim and object of our business life is to please our customers—
1st. By giving them the best possible Instrument for the lowest possible price.
2d. By giving them every accommodation possible, such as very easy monthly or quarterly payments,
ON OUR NEWLY REVISED PAYMENT PLAN,
So that should the purchaser on this Plan
FALL SICK,
Or meet with disaster in his affairs, he will not lose his instrument or what he has paid on it.
Remember, also, that no matter what others may tell you they can do, S. HAMILTON'S HOUSE will do better for you, because they can sell you a better instrument, and they will sell you lower than any other house can afford to sell you. You are cordially invited to call or write to

BONDS at Frankfort 99.

PETROLEUM at Antwerp 26f.

GOLD closed in New York yesterday at 115¾.

IN VIEW of the unfavorable season, the Library Hall lecture course has proven quite a success.

THE bank of Rio Janeiro has suspended,—a fact that does not argue well for the finances of the Brazilian Empire.

THE musical festival, at Cincinnati, was one of the grandest events of the kind that has occurred in this country. The great Boston Jubilee probably involved more noise, but that at Cincinnati, directed by Thomas, presented music which, as a whole, was vastly superior to that of the Boston Jubilee. The extremely difficult "Triumphlied" was rendered in a manner that produced a profound impression, and the Seventh Symphony is said never to have been better performed. Altogether, it was a grand affair.

THE ending of the Beecher trial, so far as the taking of testimony is concerned, must be a relief to the public. Of late, it has amounted to little more than a bandying of assertions, and a cross-fire of denials. The contradictions were so absolute and positive, that it was extremely difficult to discriminate between them. Of course, on one side or other, there was perjury, and this of the most flagrant character. Tilton's evidence was materially shaken, that of Beecher less so. It is altogether, an extraordinary trial. The pleadings of the counsel will probably occupy a week from the time when the case is resumed, and after that, the verdict. What deliverance the jury will make, no one will assume to say.

CONSIDERABLE excitement was produced in Philadelphia, a short time since, by the statement of Mayor Stokely, that there were Councilmen who acted on certain public measures from corrupt motives. A committee was appointed by Councils to investigate these charges, and this committee waited on the Mayor, who conversed with them in the frankest possible manner. In place of going back on his charges, he gave the names of his informants, and the statements made by them to him. Mentioning several of those who were present, he said, "you must *certainly* have some knowledge of this combination." The committee thus, whatever its preferences, is compelled to go straight at the work of investigation, with a list of witnesses ready named.

THE outcome of the Temperance Convention in our city was the formation of a National Alliance, of which Rev. Dr. Swift is Chairman. The doctrine of prohibition was accepted as the standard to be aimed at,—which means the abandonment of the moral suasion theory, and, we think, the formation of a national temperance party. What influence this will exert in the future operations of political parties it is hard to tell; but we judge it will rather cripple the temperance movement itself. The anti-slavery movement that was successful went into politics merely on the issue of returning slavery to its existing boundaries, while moral sentiment was made by abolition arguments. The war came, and the Republican party marched forward as Providence opened the way, till slavery was overcome. In some such manner the temperance battle must be fought.

THE Legislative investigation, in Alabama, into the circumstances attending the election of George E. Spencer to the United States Senate, has resulted in revelations that can hardly fail to cause the expulsion of that gentlemen from the Senate. It appears that United States troops were used to frighten voters,—but chiefly a bogus Legislature was organized, members shamelessly bought, and where this could not be done, they were drugged. Even the record was falsified, and thus an election was made to appear. Such is the pith of the evidence, even considered from a Republican standpoint. The President, long since, learned enough of the character of this man to refuse to allow him to exert any influence with him. He thus has no influential backing, and will probably be ignominiously expelled from the position he has gained only by the most shameless fraud.

THE action of the Republicans of Allegheny has precipitated an issue that ought to be promptly and satisfactorily settled within the party. It is that of fair, and, so far as is possible, equal representation in the Convention, as between all parts of the county. The re-districting of this city, under the new Constitution, into small election precincts, has led to its being accorded a larger representation than heretofore, and the equality previously existing is thus broken up. The Allegheny people desire to have this rectified, and in this view we fully accord. We have noticed, these many years, that fairness pays best, in the long run. The old system of gerrymandering, by which those in power sought to retain it, generally resulted in their defeat by the people. So in the internal management of parties. If the impression gets abroad that there is unfairness in arranging nominations, or in doing the work of the party, the people are quite sure to defeat obnoxious measures. It will hurt no one to permit all to have an equal chance. The delegates on the Allegheny side have resigned, and their places will be filled by a new election.

THE war against the whisky ring continues with unabated vigor. The demand for truce and parley was refused by Secretary Bristow, and the battle is being prosecuted determinedly. It seems amazing that men who were clearly caught in the outrageous villainies that are proven against the ring—crimes that were deliberately planned and carefully carried out—should call out for a truce or parley. These men, knowing that they had violated the law, and defrauded the Government of millions, and all this deliberately and consciously, are no sooner caught than they impudently cry a halt, and threaten what they will do in return, if they are prosecuted. They will break down the Administration—these penitentiary candidates—will ruin Bristow, crush Grant, and even destroy the Republican party. All this with an air of assurance, as though the Republican party rested on one of their fraudulent whisky reservoirs. We hope they will be pushed to the uttermost extent. The law should be so rigidly enforced, and its penalties so signally enacted, that there would be little left of the whisky ring when it is done. An organization that seems naturally to run to fraudulent and vicious practices deserves to be broken up. The Internal Revenue Department is the most difficult to administer of any in the Government, and this chiefly because the whisky ring comes under it; and this seems to naturally run to trickery, fraud and corruption. No checks seem to be sure to prevent its rascalities. Officers of the Government are bought, bribery and rascality are pushed into the very presence of the Commissioner, and laws, checks and systems are put at defiance. This is the organization which Secretary Bristow is now engaged in pushing to the wall.

THE depression in the iron trade, of which so much has been said, and which has been thought to be largely confined to this country, is as severe and general in Europe, as here. The production of pig iron in Scotland was less in 1874 than in any of the last twenty years. At one time there were only 32 furnaces blowing, out of 132 erected, and the production was 400,000 tons less than in 1870. Russia, notwithstanding its activity in railroad building, imported only 5,221,000 pounds rails against 7,119,000 in 1873. In Prussia, the largest steel works of Krupp has recently discharged some thousand workmen; and the Borsig manufactory of engines at Berlin,—the most extensive in Germany,—has had to protect itself by taking a similar step. Last month, the largest Austrian manufactory of engines, Sigl, dispensed with 2,000 hands, for the reason that it had neither orders nor sufficient working capital. The Government, however, in true Austrian fashion, remedied both misfortunes by advancing capital to the works and by causing some of the railroads to give extensive orders for rolling stock. We have at least the consolation of knowing that the depression in the iron industry is not confined to this country.

NEW ORLEANS is said to have, just now, an unusual amount of suffering,—there being an extraordinary number of suicides, and many families that are dying of starvation. Several Democratic papers charge this upon the administration of President Grant, claiming that "under the pitiless persecution and plundering of the President's pets, the fountains of commerce have been dried up, trade of all kinds has been blighted, and the resources to which the people have been accustomed to look for food entirely cut off." It is perfectly well known that New Orleans owes her misfortunes to an entirely different cause. That city is Democratic, and its local administration is in the hands of that party. Taxation for city purposes is simply ruinous, and the bad credit of the city, in contrast with the improving credit of the State, has frightened capital away. Moreover, capitalists have not failed to notice the facility with which murderous outbreaks, amounting to insurrections are sometimes gotten up in the city, involving considerable destruction of life. To make matters worse, the planters throughout the State held meetings, and resolved to discharge those of their negro laborers who voted with the Republicans, and thus the staple crops were decreased and the food supply upon which the city depended was largely diminished, while the discharged blacks probably deserted the plantations to go to the city, where their presence made a bad situation worse. This is the whole secret of the present difficulty. It is time the people of Louisiana opened their eyes to the exact situation. They cannot perpetrate violences, commit murders, and keep up a system of terrorism, and not suffer the consequences. These results of their past misconduct are perfectly natural, and they ought not to be surprised. We have no doubt that those who suffer are, most of them, innocent parties, and their misfortunes appeal to the charitable, but the general result is attributable, not to the national administration, but to the misconduct of the people involved.

VIOLENCE AND STRIKES.

The right of men to control their labor, and to sell it to whom and for what price they choose, is recognized as one of the soundest maxims in labor economy. It recognizes rights which ought to be precious to every laboring man. Its converse proposition is, that capitalists have the right to employ whom, and at what price they choose. The transaction is one of mutual arrangement,—one party representing labor, the other capital; the one being a seller, and the other a purchaser. It must follow, without argument, from the mere statement of this proposition, that in order to the exercise of these natural rights, both parties must act freely, and without constraint. Therefore, if one or the other exercises undue constraint, he so far infringes the liberty of the other. The result of this infringement must, of course, depend on circumstances. In some cases it may operate injuriously to the party against whom it is exercised; in others it may be retroactive, and operate injuriously upon the persons exercising it.

We have stated these plain propositions that we may illustrate the folly and wrong of the proceedings of the miners in the anthracite regions. Intimidation and violence are being resorted to, as a means of preventing others than their own numbers from laboring at prices they choose to accept. We read from day to day of violences perpetrated, either against laborers, or in destroying the property of operators who choose to employ other than a given class of persons. These outbreaks are deliberately planned, and vigorously carried out. They not merely serve to prevent consecutive, orderly labor in the mines, but serve to destroy property, impair capital, and generate crime. All this aside, however, and the question arises whether all this violence aids their cause. We are not in possession of the facts upon which to rest a judgment as to the mining regions. If enough workers can be found to entirely supply the demand, without calling upon the striking miners, it is obvious that the strikers cannot peaceably make their point. The problem then arises,—can they do it by violence? There is very little prospect as yet, that they can. But putting aside the special facts, and referring the entire subject to general principles, we are fully convinced that peace and order will do far more toward securing the desired concessions from operators, than violence possibly can. It leaves all free to act unconstrainedly, and keeps alive kindly feelings. The puddlers of this city, in their long and wearisome struggle, abstained from violence, and the result was, that when the time came for treating for the resumption of work, there was no ill-feeling to prevent the easy arrangement of differences.

Back of these questions are those of the influence of trades' unions, on the prosperity of the laboring classes. We fully believe that in some lines of industry they operate satisfactorily, but it must be evident that in some other industries they tend to injure the prospect and well-being of the laboring classes. Unions involve officers, and it has frequently appeared to us that the officials that manage them seem to think that it is either their duty or advantage to create trouble and precipitate strikes. Thus, if a general strike is not ordered, isolated disturbances are kept up, and thus a portion of the hard earnings of those who work are taken, either as a fund against the time of trouble, or as a donation to strikers elsewhere. Thus the wages actually paid are largely drawn upon for outside purposes. We have also noticed in labor unions, so far as our observation has extended, that the single men, the least efficient,—in fact, the indolent, vicious, and even vagabond class,—are usually the originators of trouble. The men of family, who have respect for their characters, are usually slow to go into trouble; but the tramps, who are strong unionists always, are very generally the promoters of difficulty. Whether the deductions for the fund, the loss of time through enforced, and often unpalatable strikes, do not cost the men more than the unions are worth to them, is a problem that we have often thought upon. Of course we have not the *data* at command to determine it.

However all this may be, there can be no doubt that violent, abusive, and lawless strikes work as large injury to the workers as they do to the employing classes. They serve to drive out capital, paralyze industry, and destroy the very opportunity for labor. The outbreaks in the mining regions are simply defenceless. They cannot be justified, even in the light of the interests of the strikers, much less on the general principle of the rights of the contending parties. Men have a right to work or not to work, but have no right to prevent others from doing it.

AN investigation into the operations of the so-called silk conspirators shows that of the silk placed upon the market in New York city the Government was deprived of $1,500,000.

A SECOND injunction against Governor Jacob, of West Virginia, restraining him from removing the State archives from Charleston to Wheeling, the new capital, has been disregarded by that officer, who asserts that an act of the Legislature takes precedence of any judicial process.

ACCORDING to Josephus it was the law of the Jews and Egyptians that whoever without sufficient cause was found with a mortal poison in his custody was compelled to swallow it. And the *Herald* wants the New York legislators who have defeated rapid transit to be forced to swallow the gold which has corrupted them.

A DISPATCH from Rome states that the Pope's birthday anniversary was celebrated with extraordinary rejoicings. Deputations, letters and congratulations arrived throughout the day. Twelve preceding Pontiffs have reached the age of eighty-four. Pio Nono alone surpasses the years of Saint Peter in his chair. The Marquis of Stackpoole has been appointed Secret Chamberlain.

THE usual questions which precede every holiday have been started, in view of the near approach of the day set apart for the decoration of soldiers' graves. This holiday is fixed for the 30th of May, but when that falls on Sunday the statute of this State provides that the preceding Saturday shall be a public holiday, and therefore all notes falling due on that day are payable on the previous day.

AT Eufaula, Ala., as a prevention against the bite of the buffalo gnat the farmers are compelled to coat the ears, flanks and other parts of their live stock with tar and grease, and also to keep fires burning in their stock lots at night. The Mississippi buffalo gnat is described as about half the size of a common house fly, and jet black. It has a hump back, or shoulder, like the buffalo, and hence its name.

A FARMER near Tuscaloosa, Alabama, recently struck his plough upon a large earthen jar, of one hundred gallons capacity, resting on a smaller one, both containing human bones, among which were three skulls in a good state of preservation. The colossal jars were covered on the outside with heiroglyphics and figures, and the general finish was much after the manner of earthenware of the present day.

THE following plan for raising funds for the Centennial Commission is suggested by a corrrespondent of the Philadelphia *Ledger*: "It seems to me that the Centennial Commission could raise $400,000 or $500,000 during this year, by issuing season tickets. It is hardly likely that the average of our citizens would visit the exhibition more than ten times, so that if they would now issue season tickets at $5 each, there would be a large number sold at once. Let it be understood that they are only to be sold during this year at that price, and then raised to a higher price during the exhibition, and this would stimulate a large sale now."

Governor Hartranft at Chicago.

Governor Hartranft, of this State, was thus handsomely introduced to the Grand Army of the Republic in session at Chicago, by the Chairman:—"The great State of Pennsylvania sent 100,000 men into the field. Among all of them, none served longer, more efficiently, or did more for the country, than her present Governor, whom I have now the honor to introduce to you—Governor Hartranft, of Pennsylvania."

To which the Governor responded as follows:

FELLOW CITIZENS: The warm and hearty welcome of your Governor has been so ably responded to by the representatives of the soldiers that it would be entirely useless for me to attempt to entertain you; therefore, I will simply say a very few words, and then retire and make room for others. I know but little of the great Northwest. We read of your enterprise in building an immense city in three years, something that could not be done in that part of the country where I live. I, however, know something of the soldiers of the Northwest. It was my pleasure to see them in front of Vicksburg, to see them in Tennessee, and in the most perilous times of the war. In the campaign from the Wilderness to Hatcher's Run, I had the honor to command Western troops, and I can say that I was proud of them. I am always glad to meet them, and my heart is always with them. [Applause.] I thank you kindly for this opportunity to express my thanks for your welcome. [Cheers.]

PUT-IN-BAY LETTER.

After the Storm—All Serene—Pounding Fish—Catching Them by the Ton—How Disposed of—The Sub-Marine Cable.

Special Correspondence Pittsburgh Gazette.

PUT-IN-BAY, May 11 1875.

After the storm comes the calm. A more delightful day than yesterday could not well be imagined. To look upon the face of the lake, smooth and bright, with scarcely a ripple on it, one feels almost ashamed to tell of the capers it cut only last Sunday. But no matter how smooth and placid it may grow, we can never forget how naughty it was then, and how unkind it treated us. We may forgive but never forget. While such experience is rather desirable after it is obtained, there are but few who have any desire to repeat the dose.

We hear of several small crafts having gone down or being ground to splinters on the rocky beach. One boat from this place was capsized and three fishermen tossed out. They managed to get ashore on Gibralter, but their escape was almost miraculous, as the breakers were very heavy. The boat was completely splintered. A scow was lying near Sugar Island when the blow came up, and to save herself she put to sea and headed for the bay. The Captain says the wind was furious, as it swept over the little island. He managed to get into a safe harbor about the time the storm was over. He says in twenty-five years' service on the lakes he never saw anything that so nearly approached the fury of the tornado or hurricane. It is now reported that a small schooner went down near the Middle Sister Island with three men on board. Neither has there been anything heard from two men who left here at noon on Sunday in a fishing boat for Toledo. It is feared they have perished. A pleasure boat capsized in the bay at Sandusky. In it were two ladies and two gentlemen, all of whom were rescued.

Pounding Fish.

This is not just what one might, at first, conclude, considering that a thing pounded is supposed to be beaten. Fish-pounding is simply the process of taking them in pounds, or nets. Yesterday morning we accepted the invitation of one of the leading fishermen to visit his pounds, of which he has nine, off to the East of Put-in-Bay Island. The haul was not as large as usual at this seasons; however he got about two ton of the "finnies." Of these about one-fourth were "sheepheads," a worthless sort of fish, which excite the utmost indignation among fishermen. The remainder consisted of black bass, white fish, pike, pickerel, perch and sturgeon. One of the latter weighed about one hundred pounds. Some days they take as much as twenty-five tons of these fish, for which there is a ready sale at Sandusky. The hard fish are frozen and laid away in this state to await summer orders for "fresh fish." The white fish are all salted, except those needed to supply the present demand. The sturgeon are the readiest sale, but the uses to which they are put are so numerous that we defer the sturgeon chapter until another time. But suffice it to say that this is regarded by all as the finest fishing ground in Lake Erie, and that Sandusky is the largest fish market on the lake coast.

Aside from the fishing, fine sailing and delightful scenery, the Put-in-Bay cable is the biggest thing they have here. It is about three miles in length, then by land, twenty-two miles to Sandusky. It has been in successful operation for two years. About a year ago it was caught by a heavy anchor and dragged out at one side. This was soon repaired, but some time since it was caught by another anchor during a storm and dragged out for some distance When the ship attempted to weigh anchor she found the cable fast to it, and instead of lifting it off as might easily have been done, she wantonly cut it with an axe or some other sharp instrument. Mr. Beach, of Cleveland, president of the company, is here at present, grappling for the lost wire. The secretary and treasurer, Mrs. A. C. McMeens, resides here on the island. In a few days it will be in operation again. A similar line is also under process of construction from Sandusky to Kelleo's Island. That will also be connected with this place during the Summer.

To-day we are going out to visit the wine cellars on the different islands hereabouts. They are said to be the largest this side of California. If there is anything strange or peculiar, or even interesting about them, we will make mention of it in our next, providing bass fishing does not take up all the time between eating and sleeping. It has been said, and we don't doubt it now, that this is the best place in America to sleep. Just why sleep is so deliciously refreshing we don't pretend to know, but rest content that the statement is probably entirely correct. Persons troubled with sleeplessness have no difficulty in wooing "tired nature's sweet restorer" on this island, providing they have a comfortable place to rest, such as we are permitted to enjoy.

Condition of the Markets at Home and Abroad.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, May 15, 1875.

The developments of yesterday were of little moment. The banks pursue the even tenor of their way, with less of business than they would like, but enough to keep their funds moderately employed. The demand for discounts increases slowly, but steadily, marking the advance in business. The growth in current mercantile business is very moderate. There is, indeed, an almost utter deadness in some branches of merchandise,—dry goods particularly. Thus, while there is an improved flow of money, it is confined, as, yet to the necessities of business and living, and not expended on anything that savors of luxury.

The latest advices from all parts of the Eastern States and from many parts of the Northwest confirm the opinion that the feeling of disappointment in the Spring trade is general. A New York letter says that in that city there is a sluggish feeling in business circles, and that it is idle to disguise the fact that, so far, the Spring trade has not, except in a few cases, come up to the expectations of merchants. The dry goods jobbers and commission merchants report but few orders. The prices of prints and some other manufactured articles are unsettled under reports of impending reductions in price. Some of the agents have marked down Americans to 8 cents. Arnold's side bands are now 9 cents. Cotton goods of all kinds are only in moderate request. The condition of the money market in New York is described by some of the New York papers as one of "desperate ease," and the present low rates of interest are expected to rule at least until the movement of the crops next Fall. Private capitalists as well as banks find it impossible to get either Governments or strictly first-class railroad mortgages at prices which they could hope to resell at when they want their money back on the revival of general trade and confidence. The low rate of interest (6 per cent.) at which the city of Chicago has just borrowed $2,250,000 in New York for one year on its certificates of indebtedness is confirmatory of this view of the whole situation. It is very difficult to even guess at what will be the result of this plethora of money. As far as United States bonds and also the bonds of some of the well-managed railroads are concerned, we are of the opinion that the demand for some such investment in Europe is so great that their gold prices will not decline. There is, however, the element of uncertainty in the fluctuation of the price of gold which will deter investments of American capital in them. If many bonds go to Europe, that fact alone will have the effect to depress the price of gold, and so depress the currency prices of bonds. American capital, therefore, labors under disabilities to which foreign capital is not subject, even with regard to investment in American securities. It is difficult to see how this stagnation of capital is to be overcome. It is, in fact, the same condition of things that has prevailed ever since the panic. The fact that it is, is the reason for expecting its continuance, and much as a certain class of theorists deprecate "artificial stimulus" to trade and industry, it looks now as though manufacturing industry would not revive and prosperity prevail again until the *General* Government and the cities inaugurate a series of public improvements. Of course this would increase taxes, but even an increase of taxes would be but a small price to pay for the revival of industry. Great public improvements have always been the means by which governments have restored prosperity to the people. Perhaps the most notable instance of it in modern history was the policy of the late French Emperor in "Hausmanizing Paris." Notwithstanding the unfavorable predictions with which the inauguration of that policy was accompanied, it did restore prosperity to France, and laid the foundation for the financial strength which France has since developed in such a remarkable degree.

NEW YORK, May 14, 1875.

Money was easy at 2½a3; prime mercantile paper 4a5½. Sterling was weak at 486½a486¾ for sixty day and 489½a489¾ for sight. The customs receipts were $281,000. The dry goods imports for the week were $1,340,000. Gold was strong, opening at 115⅝, advancing to 116⅛, and closing at 115⅞. The rise was caused by the continued outflow of gold and the efforts of a newly formed bull clique. The borrowing rates were 1 to 7 per cent, and 1-64 and 1-32 per diem. Loans were also made flat. The Assistant Treasurer disbursed $183,000. The clearings were $33,000,000. Government bonds were firm. Railroad bonds are steady. State bonds are quiet.

The Stock Exchange was a scene of considerable excitement and wide fluctuations to-day, the natural result of the breaking off of the negotiations between the Panama and Pacific Mail companies. Panama sold down to 138, a decline of 6½ per cent. Later there was a recovery to 4¼. Pacific Mail dropped off to 40, but afterwards rallied to 41⅛, with the closing business at 40⅞. Union Pacific was also affected, and declined to 71½, against 74⅞ at the close last evening. This decline was stimulated by rumors from Washington that the Court of Claims had decided against the company, although the decision would not probably be made public until Monday next. Erie opened at 28⅞ on an advance at London, but quickly declined to 27⅛ on rumors that the report would be unfavorable. Toward the close Erie rallied to 27⅞, with final sales at 27⅞a27⅞.

Rock Island declined from 104⅞ to 103⅛ on rumors of a fresh issue of stock or bonds for building some new road. In regard to this matter, President Tracy states that the directors, at their meeting in June, will consider the advisability of building a branch road to their Washington lands, a distance of about fifty miles. How the money is to be raised is to be determined at that meeting. The stock finally rallied to 104½a104⅞.

Lake Shore was weak, and declined from 71 to 70, recovering ⅛ per cent. at the close. Atlantic & Pacific Telegraph was firm, and advanced from 24⅞ to 25⅛ on the announcement that a contract was to-day signed with the Pennsylvania Railroad which allows the telegraph company to run its wires on the poles of the railroad, which will give a line from Philadelphia to St. Louis and the principal intermediate points. The other changes were less important.

The Erie report shows a decrease in the gross earnings for nine months ending March 31st of $2,082,113 as compared with the preceding nine months, and a decrease of $365,000 in the net earnings in the same period. The expenses decreased $1,717,108. The interest charges have been increased by the issue of more bonds within the same time. In reference to the coal lands, President Jewett says the complications created by the purchase have proved unfortunate and embarrassing. It is believed, however, that in a short time, if the necessities of the company become such as to require it, they may be disposed of at such prices and upon such terms as will to a great extent protect the company in the amount paid out on their account, and under such arrangements as will enable it to secure economical fuel and a large share of the transportation of the coal to be mined therefrom.

The transactions on the Stock Exchange aggregated 269,000 shares, of which 49,000 were Pacific Mail, 50,000 Western Union, 9,000 Northwestern, 17,000 Rock Island, 49,000 Erie, 28,000 Lake Shore, 9,000 Ohio, and 44,000 Union Pacific.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, May 14, 1875.

The general merchandise markets continue quiet and devoid of any new or important features to which reference has not previously been made; the demand for almost everything is confined to supplying immediate wants, while as regards values, there have been no fluctuations recently deserving of special mention.

APPLE BUTTER—50@55c ℘ gal.

APPLES—Selling in a jobbing way at $2,50@3,50 per bbl. for fair to choice, and market slow.

BEANS—Quotable in a round lot way, at $1,80 for mediums and $1,90 for navies.

BUTTER—The market continues offish, but the recent cold weather has been in favor of holders, especially of roll; fairly quotable at 25@28c for good to choice roll, and 28@30 for prime to choice dairy.

CHEESE—The stock of old is almost exhausted; prime may be quoted at 16½@17. Prime new Ohio Factory, 14@14½. The receipts of new are steadily increasing.

DRIED FRUIT—Peaches, 10@10½c for halves; Apples, 7@8. Blackberries, 9@10.

EGGS—In good supply and the market is easy, and while some dealers are refusing to accept less than 17, we are satisfied that the great bulk of the sales within the the past forty-eight hours have been at 16.

FLOUR—Trade continues moderately active, but while the general tone of the market is weaker, prices remain unchanged. Spring wheat flours, $6.00 to $6,25 for Wisconsins and $6,25@6,50 for Minnesotas; winters, $6,25@6,50 for red and $6,75@7 for amber and white. Rye flour, $6@6,25.

GROCERIES—Our Eastern advices continue to report Coffee dull and heavy, and, in first hands prices have declined one-fourth of a cent within the past day or two; however, there are those who have considerable confidence in the future, who predict that a reaction is only a question of a little time. In Sugar and Molasses there are no new features worthy of special notice.

SUGARS.

Crushed	11¾	Standard B	10¾

MOLASSES.

Porto Rico	50@55	New Orleans	75@80
Demarara	50@55		

GRAIN—The receipts of Wheat continue very meagre, and with considerable inquiry, especially from country mills, the market may be quoted steady at $1,33@1,35 for Penna, and Ohio red, and 3@5c additional for amber and white. The Oat market is strong and advancing, with a very limited supply; sales of prime white at 73½@74c, and it is expected they will go to 75 within the next day or two, as the offerings from all quarters continue light. Corn, on the other hand, is easier, with considerable offering and a diminished demand; we reduce our quotations to 86@88c, according to quality. We are cognizant of 20,000 bushels of Shelled having been offered on Thursday, for which a bid of 85c for 3,000 bushels of it was obtained. Rye is quiet and nominally unchanged at $1,15@1,20.

HOMINY—4.25@4,50 ℘ bbl.

HAY—The market for baled is firmer, and the indications at this writing favor an advance; prime timothy quotable at $23@23,50, with some holders asking $24. Little or no western hay offering.

MAPLE SYRUP—$1@1,10 for gallon jugs. Maple Sugar, 13@14c ℘ ℔.

POTATOES—The market continues slow, and prices are barely maintained—furthermore, there appears to be a stronger disposition to realize. One dollar is the extreme of the market for Peach Blows on track.

PROVISIONS—There is a continued fair degree of activity in the hog product, and while the market is steady, there has been no quotable change in rates for several days.

Hams—Extra S. C. ℘ ℔	14	Lard-Prime Leaf in tierces, ℘ ℔	16
Shoulders, Ex S. C.	11	Do., half barrels	15½
B'fast Bacon, S. C.	14	Lard-Ref. for summer use in tierces

POULTRY—Market bare of dressed. Live Chickens, by the coop, 65@75c ℘ pair.

RAGS—Quiet and unchanged; regular sales at 2½@3 cts for good mixed, woolen ½c ℘ ℔.

SWEET CORN—5@6c ℘ ℔.

SEEDS—Clover, $7,75@8 for medium, and $8,75@9 for mammoth. Timothy Seed, $2.75@3.

TALLOW—Steady at 7½ to 8c for prime country, and 8½ to 8¾ for city rendered.

PITTSBURGH IRON MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, May 14, 1875.

PIG IRON.

There has been little or no change in the general position of the pig iron trade during the past week; business continues quiet, the inquiry is mainly for small lots for mixture, and while possibly the general tone and spirit of the market is scarcely as strong as it was when the mills were first started up there has been no change whatever in prices. As stated in our last review, the mills appear determined not to buy again until they have used up what they have, and the most of them are said to have enough in yard and bought to arrive to run them until the 1st of July; so far as we can learn, however, there is no disposition on the part of sellers to make concessions in order to effect sales, and the indications are that there will not be much change either way during the time in question. No. 1 Foundry $26@27, 4 months; No. 2 do., $25; Gray Forge, $24; white and mottled, $22; hot blast Charcoal, $28@30; cold blast do., $35@40; Juniata Blooms, $78@80; Missouri Blooms, $70@75. Following sales were reported:

ANTHRACITE.

MANUFACTURED IRON.

The market for finished irons continues moderately active, although it has not as yet come up to general expectation; orders are not coming forward as freely as it was expected they would when the mills were first started up, and, furthermore, it is complained that current rates afford little or no margin for profit. Those mills working on their own specialities are doing well enough, but for the ordinary sizes, trade is generally reported unsatisfactory, although the mills are nearly all in operation, many of them working up to their full capacity. We continue to quote upon a basis of 2.35@2.40 for merchant bars, Pittsburgh classification.

NAILS.

There is a continued active demand for Nails, the best evidence of which is that the factories are all working up to their full capacity, and unable to catch up with their orders, and while the general tone and spirit of the market is firmer, there has been no change in prices; $3, 60 days, with usual discount of two per cent for cash. It is stated on good authority, that the production at Wheeling, in consequence of the strike, has been reduced about one-half, and if this should continue much longer, and the demand hold out as it is and has been for some weeks past, an advance is not improbable.

SCRAP IRON.

Continues very dull, and prices are weak and lower; No 1 wrought quotable at $31@32, delivered free at mill. Scrap Steel is in light stock and fair demand and steady but unchanged.

NEW YORK.

The market continues about as last reported, certainly without any change for the better, while many think there is a weaker feeling observable. The demand is still confined to small parcels for immediate needs. The furnaces are able to get all the coal they need, though at an advanced cost, and of a quality inferior to their usual supply. We continue our quotations of last week: No 1 Foundry, $27@28; No 2 Foundry, $25@26; Gray Forge, $23@26. We note a sale of 1,100 tons Gray Forge on private terms. Also 2,000 tons Lake Superior Charcoal Iron on private terms.—*Iron Age.*

BRITISH IRON MARKET.

A cable telegram under date of 12th says: A large business has been done under a steady demand; the decline in prices, however still continues. The following are makers' quotations:

Gartsherrie No. 1	72s 6d
Coltness No. 1	76s 0d
Glengarnock No. 1	71s 0d
Eglinton No. 1	66s 6d

Manufactured Iron and Rails remain without change.

PHILADELPHIA.

The most hopeful feature of the times is to be found in the really fair degree of activity in the West and Southwest, where a fairly good trade is being done at prices which encourage production. This, it is to be hoped, will shortly be reflected on the Eastern market, and we already have some evidence of it in quite a number of offers for Rails at cash terms, but, as is to be supposed, at prices in keeping with the times. One advantage to be expected from any Western activity is a demand for Pittsburgh Irons, which will relieve Eastern mills from that competition, and enable the maintenance of living prices for Bars, Plates, Nails, etc., now all too low for the current rates paid for raw Irons. Whether correctly or not, the Rail mills look to this spout as indicative of a better trade for the rest of the season, and with Rails follow all Irons for track supplies and rolling stock. The considerable purchases of Pig Iron for Pipe works indicates a demand for Pipes, but as figures for this product are below views of manufacturers, some of the leading makers have secured furnaces, are purchasing their own ores, and will hereafter in part produce their own Pig Iron. Old Rails and Scrap hold their own as well as could be looked for under the circumstances, but are by no means eagerly sought. The situation of the market is one rather of expectancy than activity, and the transactions include such a wide range of prices that reliable rates are difficult to quote correctly. Prices may be quoted, however, as follows:—Pig Iron.—No. 1 Foundry, $27@28; No. 2, $26; Gray Forge, $25@26, the latter Allentown Iron Company's price, with some Schuylkill Forge at $23 to $24. Bars.—2.7 to 2.8 cents per pound.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, May 14, 1875.

The market for Crude continues considerably demoralized; prices have further declined and they are lower now than they have been for several months. Immediate shipment was quoted at $1.32½ on cars at Parker, and $1,60 deliverable here in barges, on present water. To persons disposed to speculate, a good opportunity is now offered, as it cannot go much lower, and a reaction before long is only a question of a little time. Refined dull and nominal at 10c deliverable at Connellsville depot to go to Baltimore, and 12½ delivered there.

The Barrel trade is also dull, but prices are nominally unchanged; countries, $1,10@1,15; city make, $1,30.

On the 11th inst. the capacity of vessels loading with Petroleum in New York was 50,950 brls and 45,000 cases; amount on board, 28,900 bbls; required to fill, 22,050 bbls and 45,000 cases. At Philadelphia, same date, capacity of vessels loading, 45,100 bbls and 48,000 cases; amount on board, 11,400 bbls and 7,200 cases; required to fill, 36,700 bbls and 40,800 cases. Stock on hand May 8, about 40,000 bbls. At Baltimore there was, on May 10, a capacity on berth of 29,200 brls refined oil, with 11,200 bbls on board, leaving 18,000 bbls required to fill. There is also on berth a capacity for 2,200 barrels naphtha, with 1,900 barrels on board, leaving 1,200 bbls. required to fill.

A New York paper says: While the general statistical position both here and abroad appears to be strong, and the continued assertions from quarters supposed to be entitled to credit that the combination of refiners is gradually becoming perfected, the market as yet fails entirely to develop signs of strength or vitality. Speculation has seemingly become one of the things of the past, and the legitimate demand is of the most cautious and indifferent character. Exporters, when they have a positive place for goods, will venture upon a bid, but few if any can be tempted to handle goods ahead of known wants.

Chicago Seed Market.

CHICAGO, May 13.—The movement in this market was light, but the feeling notwithstanding, was one of firmness, and former prices were well maintained. The stock of timothy is quite liberal for this season of the year, being estimated at 12,000 to 14,000 bags, but of this amount very little is offered on the market, it being generally in the hands of parties who are holding for higher prices, and it would be difficult to fill an order of any magnitude at the current rates, sales were made at $2,25@2,40 for good; prime quotable at about $2,45, and choice at $2,50. Nothing of importance was done in clover; there was but little good medium on the market and prices were firm; quotable at $6,75@7 for good to prime; mammoth about $7,75. Flax was dull. Trade in Hungarian was restricted, but prices remain steady and firm; sold at $1,40 for good, and $1,45@1,50 for prime. Millet sold to a limited extent at $1,50@1,55.

Chicago Potato Market.

CHICAGO, May 13.—The offerings were fair, with the arrivals consisting chiefly of Western, and the market ruled easier. There was only a moderate demand, and choice, well assorted car lots were salable, but poorly assorted and mixed and early rose ruled dull. Sales were: 1 car Eastern peachblows at 95c on track, 1 car at 97c, 1 car at 95c—all delivered: 2 cars Western early rose at 55c, 1 car mixed at 40c—all delivered; 200 bu Eastern early rose from store at 75@78c. 50 bu small at 60c. Car lots of Eastern peachblows ranged at 95@98c. Small sales from store ranged at $1. Western peachblows quotable at 80@85c for car lots of choice, with sales from store at 90c@$1. Early rose slow at 60@70c for car lots of Eastern, and 80@90c from store. Western early rose slow at 55 to 60 cents for car lots, and 60c to 75c from store. Mixed dull at 35c to 50c for car lots.

BOATS LEAVING TO-DAY.

Cincinnati, Exchange, 4 P. M.
St. Louis, Rover and barges, 4 P. M.

THE stage of water last evening was five feet ten inches, and falling. Cloudy and warm, with an occasional sprinkling of rain in the afternoon, and indications in the evening favorable for more.

THE Fanny Tatum from St. Louis, is among the first boats due.

THE Fearless and barges will probably load for St. Louis next week.

DANIEL HIPPLE, a well-known cabin builder, has been elected wharfmaster at New Albany.

THE Mallie Ragon from Wheeling, arrived and departed, and the Granite State for Portsmouth.

THE Robert Mitchell, en route from New Orleans to Cincinnati, has 52 barrels of rice for Haworth & Dewhurst, of this city.

THE heavy storm Tuesday night made the river very rough, and sunk a lighter of coal, owned by Main & Parks, at New Albany.

THE Rover and barges, of Gray's famous Iron Line, will positively depart for St. Louis to-day, and shippers should bear this in mind.

THE fine new steamer John L. Rhoads, Captain J. M. Vandergrift, is announced for St. Louis forthwith. Here is an excellent opportunity to persons going west.

THE fine passenger packet Exchange, Capt. Shuman, will positively take her departure for Cincinnati to-day, and passengers and shippers should bear this in mind. Messrs. Harbison and Dales are still associated together in the office.

CAPT. BILL MASSIE, of the Upper Missouri, says this is his last season on the river; that he was pilot of the first steamboat that went up the river to Omaha is said by the *Bee*.

CAPT. SWENEY, who built and commanded the steamer Armadillo, is making the round trip on the Mollie Ebert with Capt. Batchelor. Capt. Sweney retired from the river several years ago.

SEVEN-SIXTEENTHS of the Great Republic was sold at St. Louis, Monday, at assignee's sale, for $6,500. Capt. Wm. H Thorwegan, her present commander, was the purchaser, and now is the entire owner of the boat.

CAPTAIN E. W. GOULD has commissioned, it is said, D. S. Barmore & Co. to build another steamer. It is supposed the new boat will be a duplicate of the successful Belle St. Louis, and for the same trade—that of the Missouri.

COMMANDER J. P. FYFFE has been detached from duty as Light-house Inspector of the Fourteenth District, June 1 prox., and ordered to command the Monocacy, Asiatic station, per steamer of July 1, from San Francisco.

THE towboats My Choice and Jas. Gilmore have arrived. As far as heard from, the boats that left on Thursday with tows of coal, were all right, having met with no detention, contrary to general expectation, as they had very little water to spare.

Captain Monroe Ayres, a veteran commander in the Muskingum River trade, is in Cincinnati, accompanied by his daughter, visiting the Musical Festival. Captain Ayres retired from the river several years since, and is enjoying most excellent health.

A NEGRO hackman at Natchez, named Sid. Reedy had the Thos. Sherlock arrested because the watchman refused to allow him up stairs to annoy passengers. The boat wasn't hauled up before the authorities, but the officers were. The case was dismissed at the cost of the negro.

AT New Orleans the United States Local Inspectors have concluded the taking of testimony in the steamboat investigation, and will, from the evidence already before them, give an opinion which will treat of the origin of the fire, the number of persons lost, and the conduct of the different tug-boats.

BEN. BURCH, mate of the Lessie Taylor, who cut the burning John Kyle loose, was before the court at New Orleans the other day, charged with assaulting and beating one Henry Moore. He plead guilty, waived preliminary examination, and was held to answer before the First District Court, his bail being fixed at $250.

CAPT. JOHN. J. DARRAGH, late of the Paragon, arrived yesterday from St. Louis. According to our Cincinnati and St. Louis exchanges, his visit here is to contract for a new boat. He is in excellent health and spirits, and was warmly welcomed back to Pittsburgh by his many friends—he is too good a steamboatman to remain idle long.

THE Wheeling *Intelligencer* of yesterday says: Captain Williamson of the Mallie Ragon, stepped off yesterday morning, and Godfrey Muhleman has taken his place for a few days. On his last trip up Captain Williamson lost his plug hat, which was carried away by a gale of wind. He contents himself now with a low crowned hat now.

THE St. Louis *Democrat* says.—The combination of New Orleans steamers is working so well at both ends of the route, and all along the line, that a similar organization can be confidently recommended to the Cincinnati owners likewise. It is extremely probable that they are already discussing the matter. The good to be obtained is so palpable that no agitation in regard to it by the press should be required.

THE Louisville *Courier* of 13th says:—We learn that the Susie Silver came down here night before last, took on 25 or 30 men, went over to the cement mills on the falls, and took on 3,000 barrels of cement for St. Louis. At one o'clock yesterday morning the men applied for their money, when the captain offered them seventy cents apiece for their labor. The men refused to take it, when the captain rushed up stairs, got a pistol, came down and drove the poor devils all ashore with it. The boat backed out, the men walked three or four miles before daylight, and we suppose the captain of the Susie is "happy."

HOME NEWS.

Maternal Love.

Yesterday afternoon a five year old son of James Cornelius, who lives in an old boat house in the Allegheny river, at the foot of Allegheny avenue, fell into the river, and as soon as Mrs. Cornelius observed the accident she jumped in after him. Both of them came near drowning, and doubtless would have met a watery grave had they not been rescued by a number of men who witnessed the occurrence.

The Allegheny Delegates.

All the delegates to the Republican State Convention from Allegheny City, appointed by the County Executive Committee, have declined the position tendered them, in deference to the expressed wishes of their Republican constituents. Three of the appointees promptly announced their resignations on the evening of the meeting. The fourth was finally made to appreciate the incongruity of his isolated position and succumbed to popular sentiment yesterday. The coast is now clear for the primaries in the First Legislative District.

Military

To the Editors of the Pittsburgh Gazette:

It was stated in the *Chronicle* of Friday evening that some of the companies of the Nineteenth Regiment proposed going to the celebration at Greensburg without permission of their Division Commander. I wish to state that the Washington Infantry, Co. A of the Regiment is not one of these companies. This company will not go to Greensburg at all as a company, but if the members choose, in their individual capacity, to attend the celebration, of course they are at perfect liberty to do so. If they go, however, they do so as private citizens, and not in the capacity of soldiers.

Condolence.

Mrs. Mary A. Fleming, mother of Hon Hugh S. Fleming and J. P. Fleming, Esq., died at Council Bluffs, on May 12th, and the remains have been brought to Allegheny for interment. We tender our sympathies to the bereaved ones, in the sorrow occasioned by the loss of their mother, who was in every way worthy of their affection.

The deceased was a lady of very estimable character, who was held in loving esteem by all who knew her, and whose demise will be sincerely mourned.

The funeral will take place this afternoon at two o'clock from the residence of her son, Hon. H. S. Fleming, No 66 Irwin avenue, Allegheny.

WESTMORELAND MURDER TRIALS.

The Cases Taken Up Yesterday at Greensburg.

The trial of Jno. H. Watson, Ford Thompson, James Boon and F. L. Douglass, indicted for the murder of the Italians at Buena Vista, commenced yesterday morning at Greensburg. All the defendants plead not guilty. The Commonwealth is represented by District Attorney D. T. Harvey and Dr. Frank Cowan, while Hon. Edgar Cowan and J. J. Hazlett, Esq., appeared for the defendants. The opening address to the jury in behalf of the Commonwealth was made by Mr. Harvey, after which the examination of witnesses commenced, and testimony taken, up to the adjournment of Court yesterday evening.

In the cases against Armstrong, Guscetti and Pecci, the Court granted a severance, allowing each of them a separate trial. The applications for changes of venue in the riot and murder cases, as has already been stated, were refused. Yesterday morning a *nolle prosequi* was entered on one of the indictments for murder against Pecci.

The trial of the fourteen miners indicted for riot at Latrobe on the 26th of February last, was concluded on Thursday before Judge Logan, but no verdict has, as yet been rendered.

"OLDDE FOLKES CONCERTE."

How the Hazelwood Singers and Others Entertained an Audience on Thursday Night.

The "Oldde Folkes Concerte," which was given in the public school house at Hazelwood, for the benefit of the Presbyterian and Christian churches of the Twenty-third ward, on Thursday night, was an eminent success in every respect. The performers evinced very careful training under Prof. Ed. Rinehart, by the manner in which they performed their several parts. Choruses, solos, songs, duets and even the old time church tune was presented in a style that called forth the applause of the audience and resulted in repeated *encores*. The impersonation of "Father Kempt" by Prof Rinehart and of the "Yanke" by Prof. Alexander, of Christ M. E. church choir, were said to have been excellent, each one being fully able to act the part of the character assumed with perfect ease and grace. The costumes were very attractive, and were gotten up in a style to represent the dress of "ye olden time," and were very highly commended for their neatness and taste. The singing throughout was very fine and the entertainment, taken as a whole, proved such a success that the audience, through Senator Anderson, requested its repetition at no distant day. We have been informed that the request made will be complied with on next Thursday night, at which time a special train will be run on the Connellsville railroad, for the accommodation of those desiring to attend from the city.

Address—Mrs. Annie Wittenmyer, of Philadelphia. Singing—Prayer—Doxology—Benediction.

The following exercises will be observed at the evening meeting, which will begin promptly at 7½ o'clock. Opening—Anthem—"The Earth is the Lord's"—sung by the choir. Hymn—Reading of Scriptures, and Prayer. Singing—Selections—choir and audience. Opening Address—Mother Stewart, of Springfield, Ohio. Singing—Solo—"All Caused by Rum." Address—Mrs. Mary Bynon Reese, of Alliance, Ohio. Anthem—"Guide me, Oh thou Great Jehovah." Volunteer addresses—five minutes each. Singing—Selections—choir and audience. Address by Thornton A. Shinn, Esq., of Beaver, Pa. Subject—"How shall we best advance the temperance cause."

The committee in charge of these meetings request us to state that the exercises will begin promptly at the hours named, and it is hoped that the audience will all be seated by that time.

THE LECTURE SEASON.

The Financial Results—Capt. Herbert's Report.

Captain Herbert, chairman of the Library Lecture Committee, has submitted his report of the lecture season of 1874-5. The report makes mention that twelve lectures were given in the regular course, and four supplemental entertainments, but the success, owing to the stringency of the times, was not great in a financial way. We here give in substance the general results of the season heretofore, and the causes which led to a deficiency in the ducats. The report of the Treasurer, Mr. James M. Bell, shows up as follows:

Receipts—By cash from 278 season tickets at $4.00, $1,112.00; by cash from 223 season reserved tickets at $6.00, $1,338.00; by cash from evening admissions $3,752.00. Total, $6,202.00.

Expenditures.—To cash paid lectures, $2,372.50; to cash paid Hall Company, $1,200; to cash paid newspaper advertising, $771.49; to cash paid printing posters, programmes, &c., $349.36; to cash paid music, $145; carriages, $53—$248.00; to cash paid sundry expenses, bill posting, telegrams, ushers, etc., $159.00. Total, $5,600.35. Net profit paid W. N. Riddle, Treasurer Y. M. M. L. A., $601.65.

The Chairman says: Notwithstanding the superior merit of the lectures and entertainments offered, we regret that we are not able to report better financial results. The extreme stringency in monetary affairs interfered seriously with our receipts and audiences. The most attrative names on our list failed to crowd our hall, as in former seasons.

Captain Herbert also transmits a letter declining the honor of a re-appointment on the committee, and suggests that a six years service entitles him to an honorable discharge. The Captain's logic, however, is defective, because that six years' service has shown him to be the right man in the right place, and for that reason he ought not to be released. All who have had intercourse with him in the position will endorse that, and hope that he will reconsider his determination.

The anniversary will be held in the afternoon and evening at the First Presbyterian church, Wood street.

The Papal Jubille in progress at the Cathedral, and throughout the Catholic diocese of Pittsburgh, is assuming the character of a marked event in the history of that Church in this locality. It is said that fully twenty thousand of the faithful have already complied with the ecclesiastical mandate to visit the Churches, give aims and pray for the "Pope's intentions"—the spread of the religion and conversion of all unbelievers. To conform to the rules, the communicant at St. Paul's has to make fifteen pilgrimage to four widely separated church edifices, say prayers in each one and approach the altar and receive the sacrament of the Eucharist. The pilgrimage altogether in the allotted time stretches out to forty-five or fifty miles—doubtless good for *souls*, but hard on *soles*.

Bishop Kerfoot will meet the clergy from several of the Deaneries in convocation at Kittanning during Whitsuntide. The opening service will be in St. Paul's church on Tuesday evening, May 18th, at 7½ o'clock. The Rev. Dr. Spalding, of Pittsburgh, the Rev. G. C. Rafter, of Johnstown and others, will address the congregation at this first service. On Wednesday, the 19th, there will be services at 10½ A. M. and 3½ and 7½ o'clock P. M. In the afternoon there will be a general business meeting, followed by the consideration of a subject at present claiming much attention, viz: Our Sunday School Work. On this subject two papers will be offered by the Rev. G. C. Easter and the Rev. J. Heber McCandless, presenting ways and means, plans and details, for the meetings to consider and determine upon. The Rector of Kittanning, the Rev. R. N Micou has made ample preparation to receive his visitors, and expects a large attendance. Bishop Kerfoot will preach on Wednesday evening, and at the same service administer confirmation.

ORDINANCES.

Notice.—The following Ordinances relative to Street Improvements are published for information, in accordance with the provision of section 6 of an Act of Assembly, entitled "A further supplement to an act entitled an act concerning Streets and Sewers in the city of Pittsburgh, approved March 20th, 1873:

Section 6. That no Ordinance or any improvement and no report of viewers shall be finally acted upon by both branches of Councils until at least one week after its representation and publication in official papers authorized to do the city printing.

And will be presented to Councils for final action at next meeting.

AN ORDINANCE—Releasing the Pittsburgh & Connellsville Railroad Company from certain obligations created by virtue of an ordinance entitled "An Ordinance altering the grade of Second street, and for other purposes," passed August 16, 1858.

Section 1. Be it ordained and enacted by the city of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That upon the Pittsburgh & Connellsville Railroad Company paying to Everson, McCrum & Co., the sum of twelve thousand five hundred dollars, and the said Everson, McCrum & Co., executing and delivering to the City Controller a release in proper form releasing the city and the said railroad company from all damages resulting to their property by reason of the grading of Second avenue, in accordance with the grades established by an ordinance entitled "An Ordinance altering the grade of Second street, and for other purposes," passed August 16, 1858, or by an ordinance entitled "An Ordinance amending an ordinance entitled 'An Ordinance altering the grade of Second street, and for other pourposes', passed August 16, 1858." No. 170, Common Council file, 1875; and upon the said railroad company filing with the City Controller its agreement, properly executed, stipulating that said company will pay all other damages to property on Second avenue, caused by the grading of said avenue, in accordance with the provisions of said ordinance of August 16, 1858, or of the said ordinance amending the same, and that said company will, within thirty days after the passage of this ordinance, commence work on the widening of the bridge over the road of said company where the same is crossed by Second avenue and Cross street, and without any delay, prosecute the same to completion of the full width of said avenue and Cross street, in such manner as shall be satisfactory to the City Engineer; and that said company shall forever keep the said bridge in complete repair, and then in such case the said railroad company shall be and is hereby released from so much of said ordinance of August 16, 1858, as requires the said company to make the alterations in grade provided for in said ordinance, at its own expense, and also from the payment of such damages as may be sustained by Everson, McCrum & Co., by reason of the grading aforesaid. Provided, however, that this ordinance shall be void and of no effect if the said releases and agreements hereinbefore provided for are not filed with the City Controller within thirty days from the passage of this ordinance.

AN ORDINANCE—To authorize the Pittsburgh, Virginia and Charleston Railway Company to use Short street, 30th ward, Pittsburgh, and for the erection and maintenance of a stone archway on line of said Short street.

Whereas, Short street running from Carson street to Manor street in the 30th ward is now impassible, and the Pittsburgh, Virginia and Charleston Railway Company is willing to construct and maintain a stone archway along the line of said street, and under the tracks of said company, so as to render said street safe and suitable for travel, on condition that said company be allowed to use said street for railway purposes, therefore

Section 1. Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That the Pittsburgh, Virginia and Charleston Railway Company be and they are hereby authorized to make use of said Short street, for the purposes of their business, and for such time as they may so desire to use it, on condition that the said the Pittsburgh, Virginia and Charleston Railway Company shall construct and maintain a good and substantial stone archway not less than twelve (12) feet in width, and ten (10) feet in height as a passage, way from Carson street to Manor street and steps from said archway to Manor street, so as to furnish a way for pedestrians between said thoroughfares, and construct a sewer twenty (20) inches in diameter in said archway from Carson street to the south line of said archway, the city to continue said sewer to a drop on Manor street. All work to be done under the supervision and to the satisfaction of the City Engineer.

AN ORDINANCE—Amending an ordinance entitled "An Ordinance changing the grade of Second street, and for other purposes," passed August 16, 1858.

Section 1. Be it ordained and enacted by the City of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by authority of the same, That section first of an ordinance entitled "An Ordinance altering the grade of Second street and for other purposes," passed August 16th, 1858, be and the same is hereby amended so that the same shall read as follows, viz.: That the grade of Second street, from the angle in said street near the line of Manor lots Nos. 4 and 8, shall fall 2 59-100 feet per 100 feet for the distance of 710 feet to eastern curb line of Cross street; thence at a fall of 5-10 feet per 100 for the distance of 200 feet; thence at a fall of about 1 9-10 feet per 100 feet for a distance of about 840 feet; thence at a fall of 75-100 feet per 100 feet for a distance of about 203 feet to a point in the grade heretofore established, and that the Pittsburgh & Connellsville Railroad Company be and is hereby authorized and empowered in constructing its road to the Station ground in this city, located between Try and Grant streets in the Second ward, to pass under Second street at or near its intersection with Cross street, and also to cross Brewery street, Iron alley, Try and Ross streets, agreeably to a plan of that portion of said city furnished by the Recording Regulator, and the final location of said road marked therein in blue ink by the Engineer of said company, which plan and location has been identified by the signature of the President and the seal of said company and filed in the office of the Recording Regulator.

AN ORDINANCE—Authorizing the opening of Mount Oliver street, from Plane avenue to city line.

Section 1. Be it ordained and enacted by the city of Pittsburg, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That the City Engineer, be and he is hereby authorized and directed to survey and open within sixty days from the date of the passage of this ordinance, Mount Oliver street, from Plane avenue to city line, at a width of fifty feet, in accordance with a plan on file in the Engineer's office, approved by Councils first day of May, 1874. The damages caused thereby and the benefits to pay the same to be assessed and collected in accordance with the provisions of an act of Assembly entitled "an Act concerning streets and sewers in the city of Pittsburg," approved January 6th, 1864, and the several supplements thereto.

THE WESTMORELAND CENTENNIAL.

Celebration To-day at Greensburg of the Hannastown Resolutions of a Century Ago.

The Centennial celebration of the Hannastown declaration of independence takes place to-day at Greensburg, and a great many residents of Pittsburgh have made arrangements to attend it. A special train leaves the Union Depot a few minutes after eight o'clock this morning and will likely convey a large number. The Committees on arrangement are as follows.

Reception—Hon. John Latta, Lieutenant Governor of Pennsylvania, Chairman. Hon. Jacob Turney, Hon. H. D. Foster, W. H. Markle, Esq., Hon. A. M. Fulton, Dr. J. W. Anawalt, H. P. Laird, Esq., J. J. Johnston, Esq., J. J. Hazlett, Esq., J. W. Turney, Thomas Donohue, J. M. Steel, D. Tinstman and J. W. Wilson.

Decoration—Wm. M. Singer, Chairman. Messrs, F. M. Sawyer, D. H. Rankin, C. Cribbs, Jacob F. Dick, Underwood Gay, Wm. C. Holmes and Frank Kline.

Finance—Hon. J. C. Clarke, Chairman. Dr. Piper, J. A. Marchand, Silas A. Kline and George W. Frick.

Col. Richard Coulter has been selected to act as Chief Marshal and his list of aids so far as made up is as follows: General Daniel Leasure and Captain W. W. Fullwood, Pittsburgh; Captain J. J. Bierer, Latrobe; Captain W. M. Jordan and Lieutenant George Gibbs, Mt. Pleasant; Samuel Rock, Adamsburg; Captain C. C. Markle, West Newton; Major William Hugus, Salem; Dr. J. W. Annawalt, Welty McCullough, Dr. W. J. Kline, John P. Kilgore, G. W. Good, J. C. McCosland and H. S. Coshey.

The oratorical work of the occasion will be performed by Hon. Edgar Cowan, and speeches will likely be made by other prominent gentlemen. At one o'clock this afternoon a mass meeting will be organized at the Court House, over which Hon. James Veech is expected to preside, but should he be prevented by illness from attending, Hon. Moses Hampton, the first Vice President, will take his place. The following are among the more prominent people who will likely be present at the demonstration: Governor Hartranft and staff, ex-Chief Justice Lowrie, General Simon Cameron, Hon. Thomas M. Bigham, Chief Justice Shannon, of Dakota, Col. Guthrie and many others.

From the top of Bunker Hill, an eminence within the limits of the town, a salute of thirteen guns will be fired at six o'clock this morning, and at noon a National salute will be given. Ample preparations have been made for the full and complete decoration of the town, and Greensburg will doubtless be in its prettiest holiday attire. Delegations will be present from all the principal towns of Western Pennsylvania. The receipt of invitations to attend the celebration have been acknowledged by President Grant and the Governors of Tennessee, Virginia, Delaware, South Carolina, Rhode Island, New Jersey, New York, Pennsylvania and Iowa. Governor Henderson, of Indiana, states in his letter that he was born in Westmoreland county, and regrets his inability to be present, on account of the pressure of official business. Governor Porter, of Tennessee, expresses the hope that these centennial meetings will assist in the work of consigning to oblivion all differences between the North and the South. Governor Kemper, of Virginia, also writes in a similar strain. President Grant expresses sympathy, but will be prevented by official business from participating in the ceremonies.

POLITICAL NOTES.

The Commissioner's Office—Three Good Candidates.

It is a fact which is duly appreciated in our county, that the office of County Commissioner is one which should be filled by first class material. The office is really one of the most important within the control of the people, and as it touches very closely their pockets—inasmuch as the Commissioners have much to do with the county finances—it is important that men of integrity, of judgment, and of experience in business affairs, only be chosen. Hence the claims of candidates for this office are very closely scanned.

Among those who are announced for this place is Mr. Augustus Beckert, who has filled the office for the past term. Mr. Beckert has fulfilled his duties in a manner to entitle him to the highest confidence of the people. He has been fearless in the discharge of every duty, and has labored earnestly to bring about needed reforms in the office. He has proven to be not only honest, but capable, and has filled the office to the general satisfaction of the people. With such a record he comes out again as a candidate for re-election, and his friends deem it nothing but fair that his course should be endorsed by a second term.

Another candidate is Mr. James G. Murray, who has also held the office, and understands what is needed in it. Mr. Murray comes from a country district, and has his strongest supporters among those who know the man most intimately. He has labored unceasingly with his colleagues to bring about a perfection of system in the Commissioner's office, and to make it a place where every taxpayer could receive ample satisfaction. Mr. Murray is honest and straightforward in all his dealings, and his official life is without a shadow. Upon the grounds of past services in office, and to the party, he comes forward as a candidate for re-election.

A third candidate is Mr. John McClelland, of West Deer township. Mr. McClelland has not held office, but he has helped many other men into places. He is an old wheel horse of the party, and is as consistent to his Republicanism as he is a man of integrity in his every day life. He is a man of intelligence, and would faithfully fill any office of trust and responsibility. He hails from the country, and his friends not only claim the office for him on the ground of capability, but also as nothing but fair treatment to the rural districts. He will go into the Convention strong, and his supporters say that he will pull through with ease.

Wonders Will Never Cease.

How can it be that Tiegel, Merchant Tailor, No. 53 Smithfield street, can get up a suit of good material, in elegant and fashionable style, at a cost not exceeding that paid for a suit in a ready-made clothing establishment? This can be satisfactorily explained by Tiegel himself, who, when you are there, will exhibit the most fashionable line of Summer suitings in the city. Put your money where it will do the most good.

THE "HOUSEKEEPER" OF OUR HEALTH.

The liver is the great depurating or blood cleansing organ of the system. Set the great housekeeper of our health at work, and the foul corruptions which gender in the blood and rot out, as it were, the machinery of life, are gradually expelled from the system. For this purpose Dr. Pierce's Golden Medical Discovery, with small daily doses of Dr. Pierce's Pleasant Purgative Pellets are preeminently the articles needed. They cure every kind of humor from the worst scrofula to the common pimple, blotch or eruption. Great eating ulcers kindly heal under their mighty curative influence. Virulent blood poisons that lurk in the system are by them robbed of their terrors, and by their persevering and somewhat protracted use the most tainted system may be completely renovated and built up anew. Enlarged glands, tumors and swellings dwindle away and disappear under the influence of their great resolvents. Sold by all dealers in medicines.

AMUSEMENTS.

Pittsburgh Opera House.

Harry Ellsler's benefit was unusually well attended last night, and the entertainment proved a very delightful one. It opened with the comedy of "The Poor Gentleman," in which Mr. John A. Ellsler appeared as *Sir Robert Bramble*, and Mr. Owen as *Dr. Ollapod*. The musical performance by the Great Western Band of Luppe's "Jolly Robbers" was so well done that a repetition was demanded, and in response the Band played a march. Miss Adelaide Praeger, who sang the "Polonaise" from the opera of "Mignon," and the familiar ballad, "Coming Thro' the Rye," was rewarded with well merited applause. The concluding performance was the farce of "Slasher and Crasher," in which Mr. W. C. Smythe appeared on the stage for the first time in several years. During the evening Harry Ellsler was called before the curtain and made a neat speech, and before he was allowed to retire Col. J. S. Haymaker stepped out and presented him with a gold headed cane.

This afternoon "The Ticket-of-Leave-Man" will be played, and to-night "The Poacher's Doom," "Sarah's Young Man" and "The Lost Ship." Next week T. G. Riggs comes.

Fowler's Lectures.

Prof. O. S. Fowler's popularity as an entertaining lecturer was again well attested last evening by the large attendance at his lecture in Lafayette Hall on "Love and Marriage." The lecture was plain, practical and chaste, and was a clear presentation of the delicate theme. To-day Prof. Fowler will give a lecture to ladies only at the same place. The lecture will commence at two o'clock. It will be the first private lecture he has given this visit. The price of admission has been fixed at fifty cents, and as the lecturer proposes to tell some wholesome truths in a frank, yet perfectly chaste style, the ladies can attend with profit.

Germania Orchestra.

The concert by the Germania Orchestra at Library Hall yesterday afternoon was creditably attended, and the musical selections which comprised the programme were well rendered. The Semiramide overture having been played before was familiar not only to the orchestra but the audience and was well played because it was artistically given. The next best rendered selection was the potpourri, from Faust. But one more concert remains to be given by the Germania.

Monongahela Park Association.

The spring meeting of the Monongahela Park Association, at Monongahela City, will be held on Thursday and Friday, the 20th and 21st inst. The premiums offered amount to $625. The principal race the first day is a trot to harness for $175. Information can be obtained by addressing Jno. Shanton, No. 82 Diamond, city, or J P. Sheplar, Monongahela City.

Trimble's Varieties.

The performances this afternoon and evening at this theater will be unusually interesting, and will include all the variety artists who have been engaged by Mr. Aims for this week as well as the members of the company. The programme is full of variety and attractiveness.

The Voice of the Great West.

The voice of the great West accords to Hostetter's Stomach Bitters the foremost place among specifics for malarial disease, and this opinion is echoed wherever upon this continent the Bitters have been introduced as a remedy for intermittent and remittent fevers. Those maladies being the peculiar scourge of vast regions of country in the Western and South-western States, it is not surprising that the Bitters should be the great medicinal staple of such localities, or that their inhabitants should regard this article as indispensable in the household. The experience of the western emigrant proves that it is the very best means of acclimating him to unaccustomed air or water; and old residents of fever and ague regions say that it is the only thing that protects them with certainty against the visitation of miasmatic disease. An equally high estimate is placed upon its virtues as a remedy for stomach, bowel and bilious complaints, and as a general tonic and corrective.

VEGETINE

Purifies the Blood, Renovates and Invigorates the Whole System.

Its Medical Properties are

ALTERATIVE, TONIC, SOLVENT AND DIURETIC.

Vegetine is made exclusively from the juices of carefully selected barks, roots and herbs, and so strongly concentrated that it will effectually eradicate from the system, every taint of **Scrofula, Scrofulous Humor, Tumors, Cancer, Cancerous Humor, Erysipelas, Salt Rheum, Syphilitic Diseases, Canker, Faintness at the Stomach,** and all diseases that arise from impure blood. **Sciatica, Inflammatory and Chronic Rheumatism, Neuralgia, Gout and Spinal Complaints,** can only be effectually cured through the blood.

For **Ulcers and Eruptive Diseases of the Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead and Ringworm,** Vegetine has never failed to effect a permanent cure.

For **Pains in the Back, Kidney Complaints, Dropsy, Female weakness, Leucorrhœa,** arising from internal ulceration, and uterine diseases and **General Debility,** Vegetine acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cures ulceration, and regulates the bowels.

For **Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the Heart, Headache, Piles, Nervous and General prostration of the Nervous System,** no medicine has ever given such perfect satisfaction as the Vegetine. It purifies the blood, cleanses all the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by Vegetine have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact, Vegetine is the best remedy yet discovered for the above diseases, and it is the only reliable BLOOD PURIFIER yet placed before the public.

PREPARED BY

H. R. STEVENS, BOSTON, MASS.

What is Vegetine? It is a compound extracted from barks, roots and herbs. It is Nature's Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good, sweet sleep at night. It is a great panacea for our aged fathers and mothers; for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep—as has been proved by many an aged person. It is the great Blood Purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it. It relieves and cures all diseases originating from impure blood. Try the Vegetine. Give it a fair trial for your complaints; then you will say to your friend, neighbor and acquaintance, "Try it; it has cured me."

Vegetine, for the complaints for which it is recommended, is having a larger sale throughout the United States than any other one medicine. Why?

Vegetine will Cure these Complaints.

VALUABLE INFORMATION.

Boston, December 12, 1869.

Gentlemen—My only object in giving you this testimonial is to spread valuable information. Having been badly afflicted with Salt Rheum, and the whole surface of my skin being covered with pimples and eruptions, many of which caused me great pain and annoyance, and knowing it to be a blood disease, I took many of the advertised blood preparations, among which was any quantity of Sarsaparilla, without obtaining any benefit until I commenced taking the Vegetine, and before I had completed the first bottle I saw that I had got the right medicine. Consequently I followed on with it until I had taken seven bottles, when I was pronounced a well man, and my skin is smooth and entirely free from pimples and eruptions. I have never enjoyed so good health before, and I attribute it all to the use of Vegetine. To benefit those afflicted with Rheumatism, I will make mention also of the Vegetine's wonderful power of curing me of this acute complaint, of which I have suffered so intensely.
